DATE: 2/12/21

This message is intended for informational purposes. Any individual directly affected will be contacted by BOCES and by Public Health directly during their contact tracing process.

On February 12, 2021, Jefferson-Lewis BOCES received confirmation from Jefferson County Public Health that a student at the Bohlen Technical Center has tested positive for COVID-19. This student has been fully remote and has not been in physical attendance inside a BOCES classroom, therefore there has been no exposure to other students or staff.

We are releasing this information for transparency purposes. However, we are not permitted to release any additional information at this time to protect the privacy rights of students and staff.

Once again, if you or your family has been directly impacted by a case of COVID-19, you will be contacted further by BOCES and Public Health.

The health and safety of our students, staff, and the surrounding community remains our top priority at this time. We thank you for your understanding and continued support.

For more information on COVID-19, please visit the websites of CDC (<https://www.cdc.gov/>), NYSDOH (<https://coronavirus.health.ny.gov/home>) or contact your local county public health office.
