

Can my student go to school today?

Answer these 3 questions and follow the arrows to see if it is ok to send your student to school today.

1. Has your student been diagnosed or suspected of having COVID-19?

YES

2. Is your student experiencing: Cough, Fever of 100.4 F or Chills, Shortness of Breath, or difficulty breathing, or new loss of taste or smell?*

YES

3. Has your student been in close contact (within 6 feet for 15 minutes or more) with a positive COVID-19 case?

YES

*Notify the school of illness/diagnoses as soon as possible. The school will notify the School Health Nurse Consultants

Seek testing from healthcare provider. If individual does not have a provider and needs assistance finding a testing site, call 211, or contact school for support from nursing services.

If COVID-19 test is negative:

- Isolate at home until 24 hours after fever is resolved, without use of fever-reducing medicine, and symptoms are improving.
- In addition, if student had contact with positive case in past 14 days, they must isolate at home for 10 days since symptoms first appeared.

If COVID-19 test is positive:

- Isolate at home for 10 days after symptoms first appeared and until 24 hours after fever is resolved, without use of fever-reducing medicine, and other symptoms are improving.

If you do not get tested for COVID-19:

- Isolate at home for 10 days after symptoms first appeared and until 24 hours after fever is resolved, without use of fever-reducing medicine, and other symptoms are improving.

*Notify the school of absence due to quarantine.

The school will notify the School Health Nurse Consultants

- Quarantine at home for 14 days after date of last exposure to the COVID-19 positive contact. If additional household members become ill with COVID-19, or if the exposed person cannot avoid continued close contact, the length of quarantine may be >14 days.

Contact your primary care physician for recommendation and if COVID-19 symptoms develop.

NO

Go to School

*Other symptoms that may be related to COVID-19 include: Muscle pain, headache, sore throat, diarrhea, nausea, vomiting, nasal congestion, and runny nose.

It is recommended that you speak with a medical provider if your student experiences a combination of these symptoms or with other symptoms listed above.
