Dr. Terry L. Wood
Superintendent of Schools
Wiscasset School Department

Monday, February 22, 2021

Dear Wiscasset Family Members,

We hope that everyone had a restful vacation and we are happy to be back to school. We are notifying you that one (1) individual associated with WMHS has tested positive for the coronavirus (COVID-19) during the February break. The individual began having symptoms on February 17th and tested positive on February 19th. We were notified of this situation today, Monday February 22, 2021. This student did not attend WMHS in person so there are no students at WMHS who would have been close contacts with this student. This student is in quarantine at home and will not return to school until they are cleared to do so by their Primary Care Physician or the CDC. We also were notified today that an individual associated with WMHS tested positive on February 18th but has not been in school since January so again there is no need to do any contact tracing.

Our goal is to keep you posted with pertinent information as needed. Staff, students, and family members are encouraged to follow all of the CDC guidelines and do our part to ensure that the health and well-being of our school community remains our first priority. We thank you for your continued efforts throughout this process.

Best,
