The Algonquin Way

The educators at Algonquin will actively commit to creating a stimulating, language-rich classroom environment that is developmentally appropriate, implements best practices, and is differentiated to meet the needs of every student. The classroom will capture the individuality of the whole child, encourage students' curiosity and creativity, and prepare them for future success.

Welcome to Preschool!!!

Welcome Algonquin Friends and Families to another year of fun, while learning, and growing!!!

This is the year for our youngest learners to shine brightly in our classrooms. This will be a year of magical wonder and amazing growth for our little stars!!! Watching children grow up is a beautiful thing. Your child's brain is growing everyday. Some of a child's most important cognitive development happens during their preschool years. In addition to learning academic skills, our preschoolers develop their social and emotional skills. Our children are learning who they are as people and how to be independent. At Algonquin School we need our parents to partner with us. Parents we encourage you to take an active role in the early childhood education process, helping to ensure that your child has all the support they need to develop to their full potential.

I am looking forward to our preschool adventure with your child, and family!!!

We Believe.....

- All students are capable of learning at high levels.
- All students are provided with a high quality education.
- All students will enter a safe and supportive environment.
- Education is a partnership between the school, families, and the community.
- In the development of the whole child's needs (physical, social, emotional, and academic).

Strong relationships with families are built on successful communication. Join Algonquin's Class Dojo for immediate communication with your child's teacher and principal!!!
