

February 25, 2021

Dear students, staff, families and community,

Our school community at Kendall Elementary has recently experienced a positive COVID case. As a precaution, affected classrooms will be shifting to remote learning for the next 14 days.

We are following all protocols and directives as we work in coordination with the Whatcom County Health Department. If there is a direct impact on you or your classroom, you will be notified individually. If you do not receive follow up communication directly after this initial letter, there is no need for additional precautions for you or your workspace.

Out of an abundance of caution, we will be taking appropriate sanitization measures including use of the UV light in all spaces with adult and student activity and use regardless of the potential of being an affected area.

The Mount Baker School District will continue to monitor this situation and will provide additional information if needed.

Thank you for your continued commitment to safety for our school community.

Sincerely,

A handwritten signature in black ink, appearing to read "Mary Sewright", is written over the word "Sincerely,".

Mary Sewright  
Mount Baker School District Superintendent
