February 23, 2021

Dear 8th Grade Parents/Guardians:

In preparation for the high school Pre-Registration course selection process, Macon County Academic Career Coach, Marla Davis, has been meeting throughout the year with 8th graders during school to review the courses that MCHS offers and to provide information to help with freshman course selections based on the students' career interests. **Due to Covid restrictions, we are currently unable to host an informational student/parent night; however, we hope to be able to do so at the beginning of next school year.** As an alternative, we have tried to provide as much information as possible via the [2021 COURSE REGISTRATION](#) folder on the *Counseling Center* page at www.maconcountyschools.com and through your child's **MCJH 8th Grade Career Coach/Class of 2025 Google Classroom**. We suggest that you download *Google Classroom* and join your child's **Class of 2025** using the code: **6orliii** as this will be a primary means of communicating grade-level information throughout high school.

Prior to reviewing your child's course selections, we strongly suggest that you read through all the informational material provided in the resources previously mentioned. Other valuable sources of information regarding graduation requirements, **College and Career-Technical Education, Early Post-Secondary Opportunities** are available through the **Tennessee State Department of Education's** website at www.tn.gov/education and **Tennessee Scholars** at www.tennesseescholars.org. Local policies and information regarding honors, **EPSO and CTE** information can be accessed through www.maconcountyschools.com. The information provided on these websites provide valuable guidance in helping to determine your child's four-year plan of study and post-secondary plans. Note: Course requests for students with IEP's are determined at their team meetings.

After the high school Pre-Registration course selection process is complete, you will be able to view your child's course requests in *Skyward* around late March. Notification will be made via the **Macon County Schools app** and the **Facebook** pages for **Macon County Schools, Macon County High School, and Macon County High School Counseling Center**. At that time, you will also be able to request changes regarding your child's course requests via a link in *Skyward*. **The last day to make changes to your child's course requests for next year will be April 30.** No course request changes (or schedule changes next year) will be allowed after this date due to the building of our master schedule. If you have any questions regarding the provided information or the Pre-Registration course selection process, please email Marla Davis at davism@maconcountyschools.org or your child's high school school counselor--Amanda Meredith at mereditha@maconcountyschools.org.

Respectfully,
MCHS Administration and Counseling Center Staff
