

NCPS Face Covering Procedure

Face Coverings for Staff

Please note that as a division per our reentry plan it is stated that all staff members will wear a face covering. This face covering is to be one of the following either a disposable face mask or a washable cloth/fabric face covering that goes around your ears to cover both your nose and mouth.

Face Coverings for Students

Please note that as a division per our reentry plan it is stated that all students grades PreK-12th will wear a face covering while on the bus, in the classroom and when students are within 6 feet of one another regardless of being outside

Acceptable face coverings for students include a disposable face mask, a washable cloth/fabric face covering or a fabric neck gator that can be pulled up over the nose and mouth which fits to stay in place.

Face Covering Breaks

It is appropriate to allow face covering breaks when outside for recess/PE and spaced out by 6ft between students and teachers. During breakfast and lunch face coverings need to be removed.

For Pre-K nap time it is acceptable to allow the sleeping students to remove their face coverings

Face Covering Accommodations

Medical and Developmental Accommodations can and will be made as necessary. If you or one of your students is in need of an accommodation please let administration know and appropriate personnel will be contacted to meet the need.

Accommodations must be approved by Central Office

Face Shields are considered an accommodation when being worn alone without a face covering. If a face covering is being worn and the face shield is being added as extra protection that is okay however to wear the face shield alone is not acceptable without prior approval.

Please note students with IEPs and 504s may have such accommodations please ask for clarification if needed prior to making a student place on a face covering if you are unaware of the students medical or developmental need in a classroom
