Jeff Braun, Principal, Cuba Middle/Senior High School
Jay Brenner, Assist. Principal, Cuba Middle/Senior High School

"One of Illinois' Great Rural Schools"

Dear Cuba School Community,

This letter is to inform you that on February 27th, we were notified that an individual at Cuba Schools has tested positive for COVID-19. We are coordinating our efforts with the Illinois Department of Public Health as well as the Fulton County Health Department to identify and monitor those who have had contact with this individual to prevent further spread within our school and community.

Due to health privacy laws, the identity of the individual will not be released. Please respect the family during this difficult time.

The vast majority of the school and the district are considered as “low risk” for being potentially exposed to the virus. Those individual students or staff members who we believe were in close contact with the positive case have received an additional communication identifying them as “medium risk” for exposure.

According to the Fulton County Health Department, you should monitor yourself for any signs of illness until March 7, which is 10 days from the most recent possible contact with the individual. If you are experiencing any symptoms, you should contact your local health care provider. Click here to view further guidance from the Illinois Department of Public Health on COVID-19.

We will continue to monitor the health status of members of our school community as well as our ability to safely staff our buildings.

Thank you for your support of our students. The well-being of our school community will always be our number one priority.

Sincerely,

Angela Simmons-Kenser
Superintendent, CUSD #3, Fulton County
