KCSD Out of State Travel

All students and staff who travel out of state for more than 72 hours will be required to do the following before returning to school.

- 1) Must take a COVID test upon returning back into Alaska.
- 2) Must have a negative result from that test.
- 3) Must strictly social distance for at least 5 days prior to returning to school.

If the staff or students are vaccinated, they must take the COVID test upon return to Alaska, but can return to school with no other restrictions immediately.

Travelers must have proof of arrival back into Alaska to present to the school for verification for the 5-day social distance requirement.
