Total personnel: 211

Additional county data are published by the Department of Public Health and can be found here:
https://countyindicatororeport.s3.amazonaws.com/county_indicator_report+9-28-2020.html#introduction

The Charlton County School System continues to consult with the Georgia Department of Public Health (DPH) and its Contact Tracing program regarding known exposures and staff or students with positive test results. Impacted students and personnel are reported to DPH. If a student has been in close contact with another student or staff member who has tested positive, the parents of the close contact students have already been contacted. Student names and classrooms will not be identified in an effort to protect the privacy rights of students and their families. Each weekly report includes only new cases during the school week. It is not a cumulative report.
