CHROMEBOOK CARE PLAN

Cushing Public Schools is offering a care plan for District issued Chromebooks to help reduce the cost of Chromebook repairs due to accidental or intentional damage. This is a tiered plan that covers repairs completed under this plan will receive reduced repair cost based on the number of repair incidents for the student during the academic year.

First Repair Incident: 50% off total repair cost

Second Repair Incident: 25% off total repair cost

Third and Subsequent Incident(s): 5% off total repair cost

Each repair incident will apply toward all parts required for one damaged component. Multiple components may be combined into one incident. An incident is defined as a plausible explanation as to how the damage occurred to the device components. If the incident is described as occurring over multiple instances the components would then be discounted as separate incidents with the highest cost receiving the greatest discount.

Repair costs vary depending on parts and availability, but commonly replaced parts include removed keys for (\$9.00), cracked screens (\$40.00), removed rubber feet/bumpers (\$5.00-12.00/set), and keyboard/trackpad (\$51.00). We do not charge labor on any of our repairs.

Replacement power cords are covered under this plan.

Any repair cost which exceeds the total cost of the Chromebook will be charged the full replacement cost of a Chromebook less the discount remaining under their Chromebook Care Plan. If the number of replacement keys exceeds the cost of replacing the entire keyboard the keyboard would be replaced and student charged cost of keyboard less the discount for the number of repair incidents incurred during the academic year.

If multiple students are being covered this form must be completed for each student.

This offer is available only to students in the following grades:

Cushing Upper Elementary (Grades 2-4)

Cushing Middle School (Grades 7-8)

Cushing High School (Grades 9-12)

Enrollment is permitted at any time. Enrollment in plan after first week of school requires full Chromebook inspection to ensure no damage is present on Chromebook at time of plan enrollment.

Refunds will not be issued at any time for participants of the Chromebook Care Plan.

Any student that participates in the plan and leaves and then reenrolls in the district may resume their Care Plan with the same number of incidents as when they left given it is the same academic year.
