

Brown County Project Discovery

Summer Career Academy

May 30 - June 2, 2023

If you are in 8th or 9th grade this year and want to explore some exciting careers then join us for the 2023 Summer Career Academy at SHCTC!

Do you like to build things? Choose the **Construction Technologies Option!**

Building technology is a vast industry that offers an assortment of career opportunities with varying degrees of training and education requirements. Come and explore some basic building essentials.

Its more than just a hammer and nails....

Want to get under the hood?

Want to learn more about cars and how they work?

Explore the **Auto Mechanics option!** Learn all about what it takes to be a mechanic today.

Informational Technology is a popular new field and offers many job opportunities.

If you're interested in designing software programs, installation, or managing an organization's technology system then check out Info Tech!

Like farming and working on equipment or cultivation machines? Then **Agriculture Mechanics** might be your choice. Find out what this career pathway has to offer by getting some hands on experience as a professional farming technician.

Early Childhood is all about helping children be healthy, happy, and ready for school.

Explore the different aspects of being an early childhood teacher and what's needed to become certified.

Let's explore! Let's be creative! Let's discover our career options!

Interested in getting into one of the latest **Criminal Justice** jobs?

Come to the summer academy and explore patrol tactics, arrest techniques, search and seizer, fitness training, law, and firearms training! No matter what your interests, there is a type of criminology job for you!

Cosmetology may be the right course for you!

Learn more about hairstyling, nail care, and make-up

techniques. You'll be able to explore these areas and learn more about certification and job opportunities.

Welders are in demand! Learn what a career in welding has to offer you!

Explore the process and get some hands on experience.

Interested in **Graphic Design**?

A graphic designer is someone who creates visual concepts by hand or by using

computer software. Interested in inspiring, informing,

or captivating consumers. This course will let you explore graphics software and learn more about graphic designing.

Do you like working with people and enjoy cooking, then sign up for **Culinary Arts**!

The term culinary art refers to the process of cooking and arranging food. Culinary art is more than just cooking. Professionals in this field not only prepare food,

they also create edible works of art. Generally, food is carefully prepared and arranged so that it is pleasing to both the taste buds as well as the eyes. You will have the opportunity of seeing what it takes to get started. From creating your own dessert to a cook off including foods of your own choice.

Are you interested in helping people through a **Clinical Health** career?

Health is the largest industry in America. Tremendous career opportunities exist and will continue to grow for students interested in healthcare delivery, policy, public health, leadership, medicine, nursing and other vital health professions. At the summer academy, learn about basic techniques of First Aid and CPR, the three basic vital signs, and qualifications to be part of local emergency services.

Sports Medicine is a fast-growing health care field!

These health workers can help all kinds of people, not just athletes.

You can focus on improving athletic performance, injury recovery and also work in physical therapy with some additional education.
