Keep Your PEDs Out of Sight

By: Lane Keeton

Cle Elum-Roslyn High School has a new cell phone policy in effect. PEDs, personal electronic devices are permitted on campus but put away during class unless permitted by teacher. Many students think that the cell-phone policy is uncalled for and ridiculous; while some say whatever about it. The teachers think the cell phone policy is a great idea because students appear to be less distracted by their devices.

Students, if you are

caught with your phones or other devices, teachers are supposed to take the device and enter in a referral in to Skyward. If this is your first offense you will get your device back at the end of class. If you have a second offense, the device goes to the office, a referral is entered in to Skyward and device is returned at the end of the day. As the offenses increase the consequences get worse. My best advice

is to do whatever possible to not get your phone taken away!

Spring Sports Night

By: Rylie McDaniel

Spring sport night is on February 23rd at 6:00 P.M. in the high school commons. All coaches will be there, you can get any paperwork you need, and you or your parents can ask all questions needing answers. The spring sports include track and field, golf, tennis, baseball, and softball. The first day of spring sports is the 29th, but all practices start at a different time, so listen to the announcements and watch the screen in the commons for what time your sport starts practice.

Save the Date!

- 2/19 State Wrestling Tournament
- 2/23 Spring Sports Registration
- 2/24 pSAT 10
- 2/26 Jostens will be handing out graduation stuff for seniors at lunch
- 2/26 Dodgeball Tournament at 6 pm in the HS gym
- 2/29 Spring Sports Start
- 3/5 Tolo
- 3/19 Knowledge Bowl State
- 3/23 Band Concert
- 3/29 Blood drive

Warrior Wrestling: JACK'S GOING TO STATE!

By Maddie McBride

Despite unforeseen illnesses and injuries, the Warrior wrestling team had a great season and many of the wrestlers qualified to wrestle at the district tournament. After a dominating season the Moen brothers went into post season with high expectations. Joey and Jack Moen scored through districts without breaking a sweat and moved on to compete at regionals. Both Moens faced tough competition at regionals and breezed through their first matches. The opponents got more difficult as the

day progressed and Joey finished in sixth place and Jack took home the silver medal and a birth to the state championships.

This is not Jack's first appearance at the big show. Last year Jack got a taste of the state tournament and was determined to make it back. Jack said, "I feel a lot more pressure this year because of how well I've been doing and people expect things out of me." Last year Jack competed at 160 pounds but has bumped up to the 170 pound weight class where the competition is much

stronger. Knowing that he was going to move a weight class, Jack put in extra work during the off seasons to prepare him for the obstacles ahead.

The State tournament begins Friday, February 19th at the Tacoma Dome. To follow Jack's quest for a state championship, follow the Warrior athletics and Warrior wrestling Facebook pages as well as the WIAA 1A 170 bracket. You can expect to see Jack Moen standing on the winner's podium with a medal around his neck.

DODGEBALL TOURNAMENT! By: Kaytlin Kauzlarich

Get your teams together for the Cle Elum Roslyn Dodgeball Tournament!!!, Turn in your forms at the High School office by the 22nd! Six teammates per team and 30\$ entry fee! The tournament is on February 26th at the High school gym! Sign in is at 5:20pm and begins at 6:00pm. Spectator fee is 2\$ or free with ASB. Be there or be square!

Teacher of the Month

By: Claire Howerton

This month's recipient of the teacher of the month title is our very own Mr. Eric Wickwire. As he comes into his tenth year teaching at our high school he provides some insight about himself and shares some advice to his students.

As to why he chose the path of social science he looks back at his time in college. Like many others Mr. Wickwire was unsure of the path he would travel as he entered college. There he was interested by social science through classes like anthropology which he now teaches as an elective through Central Washing University here at our high school.

As June grows near many of his senior students are looking to choose their own paths. Coincidentally some of the seniors are looking at the career of teaching. Mr. Wickwire's advise to these students, and all others looking at the profession, is, "Find content you're inspired by because if you're not inspired by the content then you're going to have a heck of a time getting kids to be engaged in your class." As to what makes a great teacher he advises them to be prepared to put in the work and be prepared to work harder than ever before.

Mr. Wickwire teaches many classes including contemporary world problems, or CWP. In this class students examine and learn about our world

through analyzing it's issues. The class uses "The Big 12" which is a breakdown of many of the roots of our world's problems today. In Mr. Wickwire's opinion the biggest issues are rooted in "The Big 12" topic of imperialism. He believes that many of the other topics on the list are caused by this, including poverty, lack of human rights, health, and lack of education.

Shayna Hyatt, a senior in Mr. Wickwire's second period CWP class, gives her opinion on why he was a good pick for teacher of the month. Aside from learning the most from him she says, "He interacts better than most teachers. He tries to get students to be more involved in their own learning." Hopefully Mr. Wickwire will be here for many more years to come.

Movie Reviews

By: Travis Sanders

Jokes and bullets are tossed like confetti in "Deadpool," a feverishly eager-to-please comic-book movie about a mercenary turned into "Superhero." However, Deadpool is far more psychotic than heroic, which he cheerfully establishes by painting the screen red with one kill after another.

A former member of the Special Forces, Wade Wilson (Ryan Reynolds) works as a heavy for hire taking down bad guys for a price. Wade is diagnosed with cancer in multiple organs. Desperate for a cure, he takes up the offer from a mysterious organization and undergoes painful, experimental treatments. The stress causes his body to mutate and defeat the cancer, gain superhero strength, speed, and healing, but his face horribly disfigured. Wade dons a masked costume to become the anti-hero Deadpool and hunts for the people responsible for his suffering. Deadpool is Rated R for violence, language, and mature content.

Cheer Tryouts are Coming up Quick

By Maddie McBride

Calling all Warrior fans! Do you love the Warriors? Do you go to all sporting events? Do you want to cheering your teams to victory? If you answered yes to any of those questions then cheerleading is for you! Cheer tryout are rapidly approaching. If you want to be a Warrior cheerleader, tryouts are mandatory. Before tryouts you will need to get your paperwork filled out and turned into Peggy. All of those looking to tryout need to attend the required workshop on March 28-30. The official tryouts are on April 1, 2016. If you have any questions contact Coach Green or a current cheerleader. Everyone is encouraged to tryout. GO WARRIORS!

Athletes of the Month

By Mikayla Hopkins

The January/ February athletes of the month are sophomore basketball player Emily Lussier (Left) and Junior wrestler Jack Moen (Up). Emily is a sophomore varsity point guard, who did everything possible to take her team to the post season. Athletic Director John Yount says, "Emily shows strong leadership skills on and off the court." Junior Jack Moen "is a dedicated wrestler," says Peggy Hemley. He recently got first place at districts in Zillah, and second place at regionals. Jack's hard work continues to pay off as he will be wrestling in the state championship tournament February 19th and 20th at the Tacoma Dome. Not only are Jack and Emily outstanding athletes, they are great leaders who are always willing to help out their teammates. You can always catch these two athletes with smiles on their faces and leaving it all out on the court or mat.

What's on Your Bucket List By: Rylee Dearmin

What is a bucket list? A bucket list is "a number of experiences or achievements that a person hopes to have or accomplish during their lifetime." What's on your bucket list? After interviewing a few staff members, I

found out what was on their bucket lists. Peggy Hemley wants to have a granddaughter, travel to Europe and live part time in Hawaii. Mrs. Williams wants to learn how to play piano, and Mrs. Houseberg wants

to travel to every single MLB stadium and watch the Mariners play. After listening to what other people want to do before their time is up, think about what you want to do, and achieve it!

Featured department: History/Social Studies

By: Chase Marquette

This month's focus is put on the subject of History with Mrs. Williams and Mr. Wickwire. In Mrs. Williams' class, the sophomores just finished with comparisons between knights and samurais. They were told to compare and contrast the positive and negative benefits of being a knight or samurai. Then they were given a choice, which would you rather be? They then had to write a 1-2 page paper on which side they would choose, along with a poster that explained why your side was better than the other. In her Junior US History class they just finished up with inventions from the early 1900's that we still use today. From Raisin Bran in 1926 to Twinkies in 1930, the 1920's were known as the "Roaring Twenties" because new items emerged that made life easier.

In Mr. Wickwire's senior class they are working on their senior projects. The task that they were given was to choose a topic of a current world problem and research it. "It's a multi-step project" said Mr. Wickwire. The seniors had to choose a topic, research it, come up with possible solutions to the problem, create a 20-30 minute presentation that they will present to the community and then they will present them at the Celebration of Student Learning. He said that the one thing that he really gets across to his students is that it is a great intro to what college is like.

Knowledge Bowl is off to STATE!

By: Liz Kaestner

The knowledge bowl team successfully made it to state after getting second place at their most recent competition against Zillah, Highland, and Royal City. The Warrior knowledge bowl team got 2nd place just behind Zillah. Knowledge bowl is essentially Jeopardy for high school students where students participate in 3 rounds and each round is different. Our knowledge bowl team consists of Seth Bassetti, Vincent Clifton, Cameron May-Penelerick, Michael Otto, Asa Sill, and Lydia Weis. The state competition will be March 19th and will be held at Arlington High School in Arlington, WA. Junior captain, Seth Bassetti said, "Everyone on the team is a really strong competitor because everyone has different strengths in different areas." If you see a knowledge bowl member congratulate them and do not bother them when they are studying trivia!

Totally Tubular Tolo! By Emmalee Sargent

Don't be a dweeb, get groovin', It's gonna be a slam dance! Do you have your sick stretch pants ready? How about your snazzy leg warmers? I bet you do... This year's stoked Tolo dance is going to be held in the Commons on March 5th, and there's going to be an 80's themed movie in the Gym. It will start at 8 and end at 11. You'll be able to capture these righteous memories in the library, where you can pose with some pretty clutch props. To chill and take your sweatbands off, there will be water and popcorn sold at the concession stands. I hope all you studs have a total blast, party hardy!

Basketball Comes to a Close

Boys Basketball

By: Trevor Hosmer

The 2015-2016 boys basketball team had high hopes going into the season; however, things didn't go exactly as planned for the boys team. The Warriors finished the season with a 7-13 record that included wins against

Highland, Kittitas, Cascade, and Golden-dale. Coaches from around the league voted seniors Dalton Hawk and Jordan Pugh into the SCAC All League teams. Senior captain Dalton Hawk, said some of the highlights of their season were "Packing the house on senior night, beating Granger twice."

Hawk also said, "The themed games were fun to play in because of the community support."

Girls Basketball

By: Paige Stucke

The girls' basketball had a very good season this year and ended their season just short of qualifying for the district tournament. The girls won 12 and lost 8 games this season. The team fell victim to numerous injuries which forced players to move into different positions and play outside of their comfort zones. Despite an injury filled season the lady Warriors were strong competitors. Head coach, Nikki Dearing, won SCAC Coach of the Year and Emily Lussier was selected as a member of the All League team. The lady Warriors fought hard in every game and left everything out on the court. Leading the way for the Warriors were high scorers Melli Rodriguez, Anna Kelly, Emily Lussier, and Alena Burchak, Senior Mikayla Hopkins said, "The highlight of the season was beating the Naches for the first time in their house."

Student of the Month **By: Brooke Wallace**

Mrs. Bender nominated Karley Burrows as student of the month for her outstanding February academic performance and overall achievements in her classes. Karley participated in Foods 1 with Bender 1st Semester, and is currently taking Health. Karley is being recognized for her abilities in class, which include but are not limited to being organized, staying focused, working hard, helping others, and being a leader. When asked for any last remarks, Mrs. Bender said, “Karley is smart, always has a positive attitude and is a joy to have in class.” Good job Karley, keep up the good work!

State Testing **By: Will Seay**

State tests are still a ways off, but it's never too early to begin memorizing random facts from the textbook that may or may not actually be on the assessment. The upcoming state required tests include the End of Course (EOC). That means biology EOCs for sophomores and the makeup EOCs for Algebra, Geometry, and Biology. Additionally the Smarter Balance Assessment Consortium (SBAC) test in language for sophomores and juniors who scored less than a 3 on their last attempt, and the SBAC test in math for the juniors. There are no determined dates for any of these tests, but they will all take place in the last month of school. As for where the tests are held, the SBACs will be in the computer labs, the EOC for Biology will take place in the gym, and the EOCs in math will be held in the classroom.

Battle of the Bands

By: Madison Taylor

The high school pep band has been busy the past couple of months. The band traveled to Zillah to play to support the Lady Warriors in their playoff game against Naches. The Warrior band wasn't the only band playing that night though. The Naches and Granger pep bands were supporting their teams as well. The rivalry left the basketball court and turned into a Battle of the Bands competition. The Warrior pep band proved they were the best of band in the SCAC. At the end of the game the Warrior and Naches bands joined together to play “Carry on Wayward Son” making an awesome performance. Despite never practicing together, the two bands sounded amazing. Cheerleader Maddie McBride said, “The bands sounded really cool together and were super loud. It made things a lot of fun.”

Coming up on Saturday, March 5th the high school band will participate in the CWU Windfest. On Thursday, March 10th, the band will compete in the YVMEA HS Band contest in West Valley, Yakima.
