**Dear Parents/Guardians:**

In an effort to provide the best learning environment for our students, we recently sought feedback from our families on what learning scenarios you would prefer for your student(s). In response to that survey, we have decided to make some changes to our Hybrid learning option.

Beginning the week of March 15<sup>th</sup>, we will bring both A and B groups together for them to learn in person 4 full days a week. The new schedule will be for all students to attend school on **Monday, Tuesday, Thursday and Friday from 8:00am-3:00pm** with Wednesdays remaining a Learn at Home day. For families who choose, students will still have the option to learn at home 5 days a week.

SCA will continue to follow all of our established health and safety protocols including wearing masks, physical distancing and sanitizing regularly. *This plan is subject to change should pandemic data determine otherwise.*
