

SIS Parent Access Authorization

Montgomery County Middle School is pleased to offer you an opportunity to have online access to student information. This information can include attendance, grades, discipline referrals, lunch account balances, medical data and fines/fees. Not all information will be updated daily so please don't hesitate to continue to use personal communication (phone calls, face to face conferences and e-mails) with staff members. Computers and internet are excellent tools, but should never take the place of working partnership between home and school. If a student is on the hold list, some of their information may be temporarily unavailable.

In order for us to allow access to confidential information this form must be signed, dated and processed. Please allow 3 school days for the information to be entered into the system. After this time, you should receive an e-mail generated from the program giving you instructions and a personal password to use.

A link is on our website (www.mc-wildcats.org) for you to connect to the SIS (School Information System). **Please print neatly when doing the email address.**

Montgomery County Middle School is providing secure information to the parent (s) of:

Student Name: _____

Email address: _____

I understand that once I agree to see this private information, it is up to me to keep my password private.

Parent/Guardian Signature: _____

Date: _____
