

**GREENVILLE**  
CENTRAL SCHOOL DISTRICT

Dear Parent/Guardian,

Last week we attended an information session through Questar III about a new opportunity for the 2021-22 school year. Questar III, in partnership with Hudson Valley Community College, is hosting a Virtual Information Night for 8th grade students and their parents on Monday, March 15 from 6-7 p.m. to learn about the new P-TECH and Early College High School Programs. Interested students are asked to complete an application that will be shared during Monday's info session. As funding allows, Greenville will select one student by lottery for each of these programs.

The programs prepare students for in-demand jobs in STEM careers, offering pathways in Computer Information Systems, Engineering, Environmental Science and Health Sciences. [Click here for a flier with more details.](#)

**WHAT:** Virtual Information Night for 8th grade students and parents

**WHEN:** Monday, March 15, 6:00 – 7:00 p.m.
