

SPRING GIFTED AND TALENTED REFERRAL ROUNDUP

Gifted students need a qualitatively differentiated program that provides time for collaborative work with their academic peers as well as time for creative self-directed projects. JNPSD provides appropriate educational services for identified gifted and talented students as part of its overall K-12 program.

Assessment for the GT program is an ongoing process, but a special push is made each spring to make everyone aware of this opportunity.

Please consider the students with whom you have contact. If any student needs to be evaluated for gifted services, please submit a referral form to the gifted and talented facilitator at the student's home campus.

*Referral
Form*

For more information contact the gifted and talented coordinator at 501-241-2080 ext 120.
