Montana Standard: 6.NS, 6.EE, 7.NS, 7.EE

Monday: test chapter 7

Tuesday: chapter 7 test continue

Wednesday: math game

Thursday: math game

Friday:

BIOLOGY

Students should develop:

Abilities necessary to do scientific inquiry
Understandings about scientific inquiry
Cells and structure and function in living system
Reproduction and heredity
Molecular basis of heredity
Biological evolution
Interdependence of organisms
Matter, energy, and organization
Diversity and adaptations of organisms
Behavior of organisms
Personal and community health
Population growth
Natural resources
Environmental quality
Natural and human-induced hazards
Basic unit of life

Monday: complete chapter 8 before break

Tuesday: complete chapter 8 before break

Wednesday: complete chapter 8 before break

Thursday: complete chapter 8 before break

Friday:

US History/Government

Monday: Ch. 5 finish study guide and draw timeline

Tuesday: chapter 5 see questions

Wednesday: wk. 15-16

Thursday: wk sh. 17-18

Friday: chapter 5 review 113

Montana standards for History:

1. Cite specific textual evidence to support analysis of primary and secondary sources, attending to such features as the date and origin of the information.
1. Cite specific textual evidence to support analysis of primary and secondary sources, connecting insights gained from specific details to an understanding of the text as a whole.
2. Determine the central ideas or information of a primary or secondary source; provide an accurate summary of the source distinct from prior knowledge or opinions.
4. Determine the meaning of words and phrases as they are used in a text, including vocabulary specific to domains related to history/social studies.
5. Describe how a text presents information (e.g., sequentially, comparatively, causally).

6. Identify aspects of a text, including those by and about American Indians, that reveal an author's point of view or purpose (e.g., loaded language, inclusion or avoidance of particular facts).
7. Integrate visual information (e.g., in charts, graphs, photographs, videos, or maps) with other information in
8. Distinguish among fact, opinion, and reasoned judgment in a text including texts by and about American Indians.
9. Analyze the relationship between a primary and secondary source on the same topic, including sources by and about American Indians.

Vocational skills

Career management is a semester-length high school elective course that assists students in their preparation for career selection. The course is designed to improve workforce skills needed in all careers including:

1. Communication
2. Leadership
3. Teamwork
4. Decision making
5. Problem solving
6. Goal setting
7. Time management

Students will complete activities that help identify personal interests, aptitudes, and learning styles.

Students will use results of self-assessments to determining careers that may prove personally satisfying.

In addition to the default course program, Career Management includes alternate lessons, projects, and tests for use in enhancing instruction or addressing individual needs.

Montana standards for workplace competencies: content standard 1-6 Students will be creating cover letter and job application to start a portfolio. Student will use computers in library which will enhance their typing skills.

Students will participate in job shadowing Monday-Friday
