

Claudia Cazares

I am a proud alumnus of Avenal Elementary, Reef Sunset Middle School, and Avenal High School (Class of 2001). Although I moved away temporarily for college, in 2004 I moved back and call Kettleman City my home. I have been employed by the Kings County Department of Public Health WIC Program since 2006. My current position is the Breastfeeding Coordinator. As we begin to recover from the devastating pandemic, the coming months and years will bring difficult decisions to our Board. Keeping the student's best interest in the forefront will help guide us through. It is an honor to serve our community and hope to inspire others to give back.
