Dear Valley School District Community

3/23/2021

I am writing to inform you that a student who attends Valley Middle School has tested positive for COVID-19. Due to privacy laws, we cannot disclose further information about the student. Whenever a person has a suspected or confirmed case of COVID-19, they must quarantine per the CDC and local health department guidelines and may not return until they meet the CDC's criteria for returning to school.

The local health department has been notified of this situation. We are asking the health department to assist in conducting contact tracing to identify individuals who had close contact with the student who tested positive. If your child had close contact with the student, you will be contacted by the health department and/or the District and provided instructions for self-care and any necessary quarantine period. Based on guidance from the health department and other agencies, Valley Middle School has been deeply sanitized and it has not been closed. District employees and students should continue to follow CDC guidelines and recommendations, and should continue to practice social distancing.

As a precaution, we encourage you to monitor your health, follow CDC guidelines, and contact your doctor if you develop COVID-19 symptoms.

The District is continuing to monitor the situation. We will provide additional information when permissible. We hope our student has a successful recovery.

Sincerely,

*Scott Rolfe*

Superintendent
