

Fred Moodry Newsletter

March 25, 2021

Calendar of Events

April 1	• 1:20 dismissal
April 2-5	• Easter Break (no school April 2 or April 5)
April 9	• 12:20 Dismissal
April 15	• 12:20 Dismissal • Parent/Teacher Conference (virtual) 2-8 PM
April 16	• No School
April 23	• Spring Pictures

Alleys and Driveways

Please remember that alleys and driveways cannot be blocked for after school pick up. You will be asked to move your cars and find somewhere else to park. We know this might sound like a broken record, it is VERY important to keep all students and staff safe.

When picking up your students, please find a safe, legal place to park and make a plan for your child to get there: them walking using crosswalks, or you greeting your child at the doors when they come out. Thank you!

Ice Cream

Just a reminder that all students who are not missing assignments will get an ice cream from Sprinkles! Ice Truck. If you have questions, please check Infinite Campus to make sure work has been turned in. Thanks to the PBIS team for putting this together!

Did you read this newsletter?

Email Mrs. Calhoun at acalhoun@anacondaschools.org for the chance to win a prize!

From the Art Classroom

Art class students have work displayed this through April 30th at the Copper Village Museum & Art Center. An art show reception for their work will be held this Thursday from 5:00-7:00 pm at the Copper Village Museum. Students are invited (by CVM) to bring their families to show off their pieces and enjoy an ice cream sundae.

Food Drive Winner

Congratulations to Mrs. Leipheimer's class for winning the pizza party for the most items! Way to help out!

Principal's Corner:

In like a lion.....Teachers were fierce about teaching their lessons as students completed their work and prepped for midterms to be sent home.

Then we jumped right into spring break, daylight saving time, the first day of spring, St. Patrick's Day, and March Madness. Did I mention our students and staff have been extremely hard at work this month, so much to do in preparation for May Flowers (Smarter Balance Testing).

This week we are focusing on our school expectations during our first half-hour in the morning. The last half hour of the day we are focusing on a "kindness" activity presented by a staff member over google meets. This is allowing all classes to see each other and work on the same activity.

Out like a lamb.....

Teachers are shearing down the workload in preparation for the third quarter coming to an end; while students are still working fiercely to complete their assignments in preparation for their upcoming parent/teacher conferences.

Ms. Mattson

Montana 4-H Live Webinar Series: GPS & Drone Aerial Mapping

February 2021 – June 2021

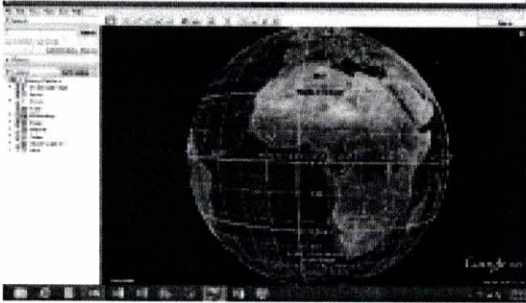

Live Webinars for Virtual Club Meetings and/or In-Home Learning

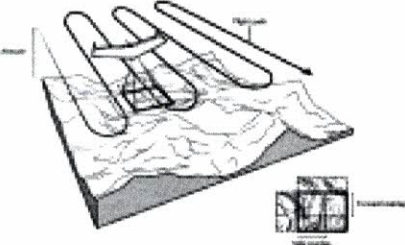

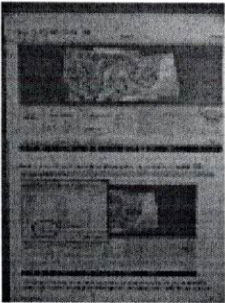

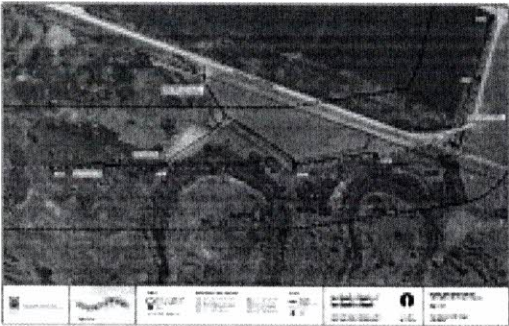

Live Webinar Topics

- Any of these topics would also work very well in 4-H Summer Camp – with perhaps older youth actually leading or teaching the youngers in GPS/Geocaching, for example.

GPS & Drone Aerial Mapping

Montana 4-H Live Webinar Series

	<p>5: Google Earth</p> <p>Introduction to Google Earth software/app.</p> <p>Apr. 5, 2021 6:30pm</p> <p>Link:</p> <p><i>Technology needed: computer with free Google Earth software or app installed or accessible.</i></p>
	<p>6: Logging points, lines and polygons with GPS Receiver Outside & Importing to Google Earth</p> <p>From field to office to map of your features of interest. Apr. 20, 2021 6:30pm</p> <p>Link:</p>
	<p>7: Introduction to Drones</p> <p>How they're used in agriculture & natural resource applications.</p> <p>May 4, 2021 6:30pm</p> <p>Link:</p> <p><i>Technology needed: a drone if you have one; otherwise this information will help you understand which type of drone or simulator to start with.</i></p>

	<p>8: Drone Simulators / Drones & Aerial Imagery / Drone FAA Flight Rules & Regulations</p> <p>May 18, 2021 6:30pm</p> <p>Link:</p>
	<p>9: Drone Flight Parameters & Mission Planning</p> <p>Elevation, speed, pattern, overlap, timing, etc. are flight variables affecting photo coverage and eventual end map success.</p> <p>Jun.1, 2021 6:30pm</p> <p>Link:</p>
	<p>10: Aerial Image(s) Stitching - Intro to Microsoft Image Composite Editor</p> <p>This software is used to stitch drone-collected photos together. Link:</p>
	<p>11: Calculating Scale for Stitched Aerial Photo/Map</p> <p>Turn your large-area drone aerial map into a land management tool by calculating the scale of your aerial map.</p> <p>Link:</p>

** Link to inflatable world globes – if you'd like to order these relatively cheap (\$15.99/doz.) globes from Oriental Tracing to have pre-blown up and on-hand for Topic 2: GPS Basics Session activity: <https://www.orientaltrading.com/inflatable-world-globes-a2-49-1290.fltr?keyword=globe%20beach%20balls&searchTarget=product>

- Other materials lists (if any) and additional resource links, for each live webinar, will be provided as we go.
