Description of district's efforts to screen and identify dyslexia

Through the RtI process, we universally screen students for issues that include potential dyslexia. Students that show below grade level scores & a continue downward trend are assessed with PRESS & STAR and grouped homogenously. The results can be used to identify potential dyslexia. Working with our education cooperative and RtI Coordinator, potential dyslexia can be brought to parents' attention, allowing families to seek medical assessment.

Description of district's efforts to screen and identify convergence insufficiency disorder

Through the RtI process and STAR reading assessments, we universally screen students for issues that include convergence insufficiency disorder. The results from the assessments can be used to identify potential disorders. Working with our education cooperative and RtI Coordinator, potential disorders can be brought to parents' attention, allowing families to seek medical assessment.
