Jr/Sr High School Field House Modernization

The new exterior concrete pad and ramps have been poured at the north entrance to the Field House to eliminate the 4" drop at the door.

Epoxy painting of the floor and benches is underway in the girls PE locker room.

Installation of the new furnace and air handler has begun in the boys team locker room.

Demolition of the boys team locker room continues. Abatement was finished today and floor grinding will start next.

A school assembly was in progress today and the new AV system sounded great!

An overall view of the modernized gym with the bleachers fully extended.
