

Press Release  
March 17, 2023

The temporary certificate for occupancy is required for new space to be occupied for any new school. That inspection process from the State of Colorado offices has been ongoing for the past few weeks at Springfield's 6-12 classrooms and cafeteria. Once achieved, the opening would occur as has been planned for March 20. That certificate has failed to be obtained.

School will not open on March 20 as has been planned. Springfield Schools leadership, kitchen staff, and 6-12 staff will meet on Saturday, March 18 at 9:00 AM to create a best plan for school to reopen the week of March 20.

At this time, students, families, and the community can expect a press release between 12:00 to 1:00 PM on Saturday, March 18 to clarify the next steps. Please be patient with the schools as we manage this unforeseen construction detail.
