

# How to connect with your student using the Canvas Parent mobile app.

- 1 Download the Canvas Parent app from the App Store or Google Play.

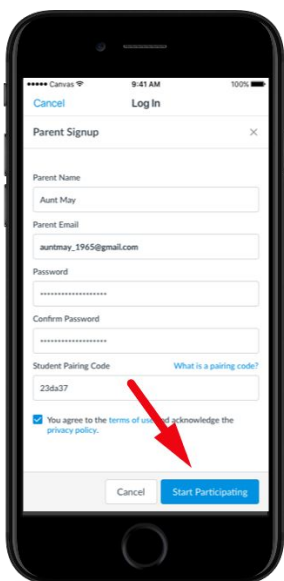

- 2 Open the Canvas Parent app, tap the Find my School button, enter "489", select "Hays Unified School District - Parent", and proceed.

- 3 Tap Create Account link at the bottom of the login page.

If you think you've created an account previously, you can click "Forgot Password" and an email with a password reset link will be sent to you.

- 4 Fill out the signup form, including the pairing code that was shared with you, and tap Start Participating.

You can get a pairing code from your student - once your student is logged in to his/her Canvas account in the browser (Safari, Firefox, Chrome, etc.) on any device, select "Account" and then "Settings" - look for a menu at the right side of the screen that says "Pair with Observer" - click on it and use the code generated as you create your account.

To add a connection to an additional student, tap on the three bars in the top left corner of the app and tap "Manage Children". Tap the "+" in the top right corner and enter a pairing code for the next student in your household. Tap "Add". Repeat these steps for additional students.

- 5 You're now connected!
