1. Call to Order

2. Update on Technology-Related Policy Revisions

Mr. Lambert is researching and revising technology-related policies and procedures based on the discussions at the 1/20/21 Committee meeting. Per the Committee's direction, he will bring revised versions of these documents to the Committee later in the year.

3. Section B Policies

The Committee will begin reviewing policies related to Board Governance and Operations. Although the Committee had discussed reviewing only certain policies within section B, the district is in the process of uploading and formatting all policies in the BoardDocs portal and it would be helpful for consistency if the Committee reviewed all policies in the section at the same time. [Section B policies can be found here.](#)

No revisions are being provided. Rather, the Committee is invited to review each one and bring suggestions and revisions to the Committee meeting.
