

# CLAY HAS BEGUN!

For the rest of April and possibly part of May, we will be working with clay. Due to COVID restrictions, we are not able to use our messy art shirts that would normally be shared among classes. Because of this, please send your students to school in clothes that you do not mind getting messy on the days that they will have art!

When cleaning clothes that have clay on them, it is best to let the clay dry and try to brush off as much of the clay as possible before washing. Wash clothes in hot water with a cold rinse on a heavy duty cycle. You can also use a mixture of laundry detergent and water on the stains before washing them if the stains persist. Most stains will come out, but it is best to not wear your Sunday best for the next couple weeks in art! ;)

I can't wait to see what everyone creates!
