Q1 What is the best part of returning to in-person learning?

I loved being able to interact with my teacher and utilize my classmates for help instead of always going to the teacher. This is important because I am a very visual/hands on learner so it's hard to just stare at a computer all day. I don't feel like I'm learning.

4.2  (9 )
Ranked #1 of 10

The best part is that we get to see friends and we actually get to see the teachers and that helps me a lot more then online. Its important because we used to sit on computers all day long just looking at a screen and that is bad but when where at school we get to walk around

Ranked #2 of 10

Be able to see teachers It's important so the you can ask more questions and have more support on work

4.2  (7 )
Ranked #3 of 10

You get help from your teachers right away instead of having to wait for them to email you back. It's important because if it was a really important question or something you needed an answer on right away you would get the answer fast in person.

Friends Friends are important to me to get rid of anxiety, and to have some fun in the day.

Ranked #5 of 10

I feel so much more engaged in person. On zoom I barely am able to stay awake and I most days don't remember what my teachers said 5 minutes after class ends

4.1  (8 )
Ranked #6 of 10

It is easier to focus. This helps me get a better understanding of what is being taught.

4.1  (8 )
Ranked #7 of 10

Seeing my friends It's good to be social and to have social interaction

4.1  (8 )
Ranked #8 of 10

getting to get up and walk around, and you can complete activities in school that before you couldn't its part of the class part of the learning going to a class thats supposed to be interactive and then not being able to interact is not fun

4.1  (7 )
Ranked #9 of 10

time management having designated time during the day to work and have teacher supervision.
