**Comments:** We couldn't have had a more perfect day of weather and our athletes took advantage of it. We had lots of good times and distances for early season, with lots of room to keep improving. Team-wise our best showings will probably large meets like this one that had 16 teams. We have a smaller team, so we don't have the depth for the smaller meets, but fortunately the Regional Meet will also have 16 teams and we should be well prepared for it. Individually, we don't have a lot of experience so not many athletes had set any PR's to break, but now that we have established marks in our events we'll start to see improvements week to week.

Moving forward we need to continue to take pride in doing the tough work in practice that it takes to succeed. If we keep attacking each practice as another opportunity to get better, we should be in great shape when we get to the League, Regional, and State Meets at the end of the season.
