

Gold Bus Routes

We have been working closely with Apple Bus Company on alternative route we are calling "Gold" Routes. These routes will consolidate the four existing bus routes into 3 when necessary. We have been fortunate throughout this school year to have all our bus drivers healthy and available. But we have identified some situations where we could be short a driver. Therefore, we made a plan to be proactive if and when such an occasion arises.

Please remember that the times listed below are approximate times. Your students should be ready and at their designated pick up location 5 minutes prior to pick up time. Also, a parent/guardian for students under the age of 10 should be on time at the designated drop off location.

In the event we use the Gold Route option, please familiarize yourself with the alternative arrangement specific to your situation. The stops are listed in the order the busses will proceed.

Gold Route #14 (primarily route #1 and part of Route #4.
