

Policy: EEAB

LATE BUS

Middle school and high school students (with parent/guardian permission) who remain after school to participate in extracurricular activities or for other school-related reasons may take a late bus to a centralized location or to one of the locations designated by the transportation supervisor as drop-off points.

The late bus schedule will be announced in advance in the weekly school calendar, but departure times may vary depending on the circumstances.

In the event that a home contest, performance or other activity extends beyond the departure time for the late bus, students and/or parents will be responsible for providing transportation home.

If an away contest takes place on a non-school day, no transportation will be provided by M.S.A.D. #44 from Telstar Middle/High School to either a central location or drop-off points. Students and/or parents will be responsible for transportation between Telstar Middle/High School and home.

Late bus service is available only to eligible M.S.A.D. #44 students
