PARENT CONFERENCES

The Board believes that a close working relationship between home and school is essential to student learning and achievement. Parent-teacher conferences provide an opportunity to report student progress, explain grades, discuss particular concerns, and encourage communication and cooperation between home and school.

A parent-teacher conference will be scheduled for each elementary student at least once during each term. Parent-teacher conferences may be requested at other times and at all grade levels (K-12) by a student's parent or legal guardian, teacher, or administrator.
