

An Important Message from the North Babylon School District:

Unfortunately, due to the time constraints surrounding making a decision to become a vaccination site for our community, the Board of Education has decided that it isn't an appropriate time to provide this space to Suffolk County as a Point of Distribution. Therefore, the West Gym will not become a community vaccination site. This topic has been removed as a discussion topic from this evening's agenda at the Board of Education Meeting scheduled for April 14, 2021
