

About Us

Cleveland High School's cutting-edge, rigorous and relevant career and technical education prepares youth and adults for a wide range of high-wage, high-skill, high-demand careers. Cleveland's Career & Technical Education consists of eleven nationally recognized career clusters with the ultimate goal of preparing students for success at the post-secondary level and in their chosen careers. These programs offer students a direct pathway to college and/or career and lead to meaningful employment. Students in our CTE programs graduate with industry licenses and certifications as well as college credit.

Our Mission

The mission of Cleveland High School's state and national award-winning Career and Technical Education Department is to provide our students with the STEM, academic, specialized knowledge, and technical skills to prepare them for continuing education in today's competitive workforce.

Today's cutting-edge, rigorous and relevant career and technical education prepares youth and young adults for high-skill, high-wage, and in-demand careers.

What CTE Offers Students

- Classes that teach skills students will need to be successful in work and life after high school
- Teachers who have worked in their career areas and who hold industry certifications and professional licenses
- Opportunities for students to earn industry-recognized certifications that can help them to prepare for internships and jobs while still in school
- Work-based learning experiences like career mentoring, workplace tours, job shadowing, and internships that will help students build professional skills
- Students will learn skills such as planning for success, collaboration, problem solving, social awareness and professional attitude
- School partnerships that help students meet adults who are working in the careers they are interested in learning more about
- Articulation agreements that offer students college credits

High-quality college and career advisement throughout K-12;

Why Choose CTE

Career and Technical Education (CTE) gives high school students the chance to get a head start on preparing for college and careers. In CTE programs students learn how core school subjects like math, science and writing are used in real-life. CTE students have the opportunity to participate in hands-on training in their chosen program and gain real world experience through job shadows and internships. Many programs offer students the opportunity to earn nationally recognized certifications.

CTE Facts

- 95% of CTE students graduate high school, which is 10% higher than the national average
- 78% of CTE graduates enroll in post-secondary education full-time
- Over the next ten years, there will be 50,557,900 job openings for CTE graduates
