

Name: Steve Young

School/Program: Transportation Dept.

Administrator School Board Update

Mar 14, 2023

Staff update:

- With the winter sports season winding down, the staff is looking forward to a little break in the action, before the busy spring season.
- We are currently working with a candidate to obtain his CDL license.

Facility update:

- The new space continues to serve the dept. well.
-

Celebrate the Good

- We have received the camera and printer and other materials needed to keep our project of scanning students on the buses moving forward. Our plan is to use 2 buses in a pilot program this spring. Our goal is to have all students riding buses accounted for in the Fall.
- We will continue our undercoating program this spring to get the rest of the fleet done in an effort to get as much longevity out of a bus as possible.
