## **Notification of Asbestos**

### **Reinspection and Surveillance**

**To: All Parents and Staff of Westview School District**

**From: Misty Hailey, Superintendent**

In compliance with the U.S. Environmental Protection Agency, (EPA), Asbestos Hazard Emergency Response Act (AHERA) in June of 1988 we performed inspections of each of our school buildings for asbestos-containing building material. The facility's findings and asbestos management plan have been on file in each school administrative office since that time.

The EPA requires us to perform reinspection of the asbestos materials every 3 years. During the month of June 2018, accredited asbestos inspectors performed these reinspections. An accredited Management Planner reviewed the results of the reinspections and recommended actions we should take to safely manage each asbestos material in our buildings.

The results of the reinspection are on file in the management plan in the school's administrative office. Everyone is welcome to view these anytime during normal school hours (M-F 8:00 a.m. to 3:00 p.m.). The asbestos Program Manager, Steven Dayton, is available to answer any questions you may have about asbestos in our buildings.

All areas that contain asbestos either friable or non friable are monitored constantly and are checked every six (6) months to ensure no deterioration of their condition. This inspection is performed to assure proper health and safety conditions for all employees and constituents of the school system.

Sincerely,

Superintendent
