

CTC Summer Camps

Grades 7-9

FREE

June 19-21, 2023

9:00 am – 12:00 pm

**Busing Provided*

AUTOMOTIVE CAMP:

Join us to take the mystery and fear out of working on your own car. You will learn to do basic automobile maintenance, a proper oil change, and changing a tire safely on the side of the road. Students will also learn how to complete some basic upkeep and preventative maintenance items that will save you money!

CULINARY CAMP:

Hot! Hot! This camp is for those who can take the heat. This culinary boot camp will entice your palate. You will work in small groups to create mouth-watering culinary masterpieces. All students will taste-test their creations and take some samples home.

DIGITAL MEDIA CAMP:

Breaking News! Digital Media Production is hitting the road and reporting from NEWSnet Studios! Join the crew as we venture to Michigan's only 24-hour news network to experience a day in the life of broadcasting. Meet former DMP students who have succeeded in the industry and take a tour of studios broadcasting nationwide. Take on the roles of Producer, Director, and Anchor as you create a one-of-a-kind broadcast featuring today's most outlandish headlines!

HEALTHCARE CAMP:

Do you have a passion for helping others? Do you want to learn how to improve the health of your own community? You will learn basic clinical skills that are used in all healthcare careers, including vital signs, first aid, and rescuing someone experiencing an allergic reaction. Use interactive manikins, chat with local medical professionals, and learn to be healthcare heroes.

OUTDOOR ADVENTURES CAMP:

Do you like the woods? Do you like to fish? If so, the Outdoor Adventures Camp is for you. Students will explore the forest on the CTC campus and go hiking. Students will also learn how to tie live bait rigs and enjoy a day of fishing.

PUBLIC SAFETY CAMP:

Not all heroes wear capes, but some wear badges. Students attending this camp will experience traffic stop scenarios, handcuffing and fingerprinting techniques, proper radio etiquette, first aid, and CPR. Students will also learn some firefighting tools, hustle into firefighter gear, participate in a search and rescue scenario, and use a fire truck's hose. Come and see what it takes to be a hero.

ROBOTICS CAMP:

Did you know that most of the things we use today are built by robots? Do you want to find out how they work? In this camp, you will be learning all about the robots that build our cell phones, game consoles, and computers. You will also learn how the robots work and how they do their job. Finally, you will teach different robots how to move pieces to play a game.

Hurry and register today.

***Space is limited and
the camps fill quickly.***
