

Ashtabula County Health Department
12 West Jefferson Street
Jefferson, Ohio 44047
Telephone: 440.576.6010

Dear Parents,

The Ashtabula County Health Department would like to offer an opportunity for your child 16-18 years of age to receive the Pfizer vaccine to help protect against the spread of COVID-19. We will be holding a clinic for Geneva Students at the Geneva High School on April 28th from 9:30 am to 2:30 pm. One parent or guardian is required to accompany any student under 18. If your child has any medical conditions or severe allergies, please talk to their physician prior to vaccination. To minimize long lines and to encourage social distancing, we would like students to come according to their last name with the following schedule:

9:30-10:30 A-C

10:30-11:30 D-I

11:30-12:30 J-M

12:30- 1:30 N-R

1:30- 2:30 S-Z

Please return this form to the High School Office by April 27th.

_____ will be receiving the Pfizer vaccine on 4/28/2021 at the Geneva
(Child's name)
High School.

_____ will NOT be receiving the Pfizer vaccine on 4/28/2021 at the
