HPE Before and After School Program Parents

Parents should call the (609) 781-3727 prior to dropping off and picking up your child. The B/ASP staff will escort the student into and/out of the school building. All students' temperature must be checked prior to entering the building.

Autism Awareness

April is Autism Awareness month and it's a great reminder to teach all of our students about empathy, understanding, and the differences within each of us. All of our students will have experiences with individuals with autism at some point in their lives. The puzzle pattern reflects the complexity of the autism spectrum. The different colors and shapes represent the diversity of the people and families living with the condition. As educators, we need to make sure our students are prepared to act with compassion and embrace these members of our community. On April 2nd Autism Awareness Day was observed, however since we were not in the school building that day we were not able to observe the day. We are inviting all staff and students to wear blue on April 23rd in support of Autism Awareness. Remember you are a piece of this awesome puzzle called Autism.
