April 22, 2021

Dear Parent or Guardian

This summer, students who need to recover course credits will have the opportunity to attend summer school on June 7, 8, 9, 10, 14, 15, 16, 17, 21, 22, 23, and 24th from Monday - Thursday (no school on Friday's), for 3.5 hours each morning, tentatively from 8:30 am to 12:00 pm.

Summer school will permit students to work in the Illinois Virtual School (IVS) credit recovery program, in individual classes online, at a self-directed pace. If students require only one recovery and they are able to complete their work in a timely manner, the student will not have to return once they have completed their course. Students who need more than one recovery should plan to stay for all twelve mornings so that they can complete as many recoveries as possible. The summer school program is very rigorous and takes a lot of dedication.

Students who attend will be required to abide by the following:

- Summer School Credit Recovery is only for students who are off track and have failed one or more courses. Students will be repeating a course that they previously failed.
- My student will be able to attend each date listed above. Please do not register if you are going on vacation during some of these dates.
- My student will turn their cell phone off and leave them on the table when they come in.
- My student understands that the program will be computer-based learning and additional work outside of these hours maybe needed..
- My student understands that he/she must complete a minimum amount of work each day in order to complete the course. If my student does not keep pace during the first week, my student may be dismissed from the program.
- Students must be awake, engaged, and working on IVS at all times.

For this program we will be able to provide twelve days of bus transportation. At this time, we are waiting to hear from transportation to know specific bus locations and times of drop-off/pick up. This will be communicated as soon as we have the information from the transportation office.

If you would like to have your child attend the high school credit recovery program please contact the high school office by May 24th.

Thank you,

Travis Titsworth  
Principal
