***"Committed to Excellence and Success in All we do."***

Dear Parent/Guardian:

Seventh graders are required to have the tetanus, diphtheria, and pertussis (Tdap) and meningococcal (meningitis) immunizations prior to entering school. Effective July 1, 2014, children born on or after Jan 1, 2002 who are attending seventh grade must have received one dose of Tdap vaccine and one dose of meningococcal vaccine. By protecting our students against tetanus, diphtheria, pertussis, and meningitis, we are keeping them, and our community, healthier and free from vaccine preventable diseases. Your child can get these immunizations at the Bryan County Health Department, most private physicians, and health care clinics. Please submit updated immunization form 3231 to the school.

If you have any questions, regarding the vaccines please call the Bryan County Health Department at 912-653-4331 (Pembroke) or 912-756-2611 (Richmond Hill).

For more information on tetanus, diphtheria, pertussis, meningitis, or the associated vaccines, go to [www.cdc.gov](http://www.cdc.gov).

Sincerely,

*C. Mitchell*  
*Lea Whittaker RN*
