

for the 2021-2022 School Year

K.A.R. 28-1-20 defines immunizations required for any individual who attends school. Please carefully review the requirements with your immunization record. The usual number of doses required are listed; however there are exceptional circumstances that could alter the number of doses a child needs. If you have questions about your child's immunization status, contact your child's primary care provider or local health department. If vaccinations are not complete you will need to call the local health department or your provider for a vaccination appointment. Proof of receiving the required immunizations must be provided to the school.

Elementary School 1st - 6th grade Immunization Requirements

Vaccine	Requirements		
DTAP/DT (diphtheria, pertussis & tetanus)	5 doses		
IPV (polio)	4 doses		
MMR (measles, mumps & rubella)	2 doses		
Varicella (chickenpox)	2 doses*		Recommended vaccinations
Hepatitis A	2 doses		Human papillomavirus (HPV): 1st dose starting at age 11
Hepatitis B	3 doses		Influenza: annually
Hib (haemophilus influenza type B)	4 doses**		
Pevnar (pneumococcal conjugate)	4 doses**		New students enrolled, under the age of 9, are also required to provide a Physical along with immunizations

* Varicella (chickenpox) vaccine is not required if your child has had the chickenpox disease and it is documented by a physician signature. Without physician signature, a vaccine is still required even if you believe your child has had chickenpox disease.

**Total doses needed are dependent on vaccine type and age the doses were administered.

***All Students in grades K-8, all new students and students currently completing the polio series must have 6 months between the last 2 doses of polio vaccine, and one dose must be after the 4th birthday.
