AGENDA ITEM: IV.A. – Approve Minutes of the May 3, 2017 meeting

**GERMANTOWN SCHOOL DISTRICT
GERMANTOWN, WISCONSIN 53022
MINUTES OF THE BOARD OF EDUCATION
TRANSPORTATION COMMITTEE MEETING**

May 3, 2017

1. The meeting of the Transportation Committee was called to order by Committee Chair Tom Barney at 5:51 p.m. in the Germantown High School Library. Transportation Committee Members Present: Tom Barney, Ray Borden, and Ad-hoc committee member Bob Soderberg. Committee member Michael Loth was absent (excused).
2. Motion by Borden, second by Soderberg to approve the agenda. Motion carried.
3. Motion by Borden, second by Soderberg to approve the May 2, 2016 committee meeting minutes. Motion carried.
4. The Transportation Committee, Superintendent Jeff Holmes, Director of Business and Auxiliary Operations Ric Ericksen, and Colleen and Patti from GoRiteway discussed surveillance cameras on all school buses with input from MacArthur Principal Steven Williams on the benefits of having the cameras installed on buses. Bob Soderberg requested measureable data and metrics with tracking of events to determine the value of the addition of cameras on all buses.
5. GoRiteway representatives with Steven Williams and Brenda O'Brien, commented on the number of sections and potential elementary boundary changes and indicated it would need to be done very quickly if it were going to be implemented for the 2017-2018 school year. The administration inquired if they should provide potential layouts for addresses to the Transportation Committee or if the committee would like to address possibilities in committee. Committee Chair Tom Barney requested the administration give options to the committee for continued discussion instead of taking direction to the Board of Education.
6. Ric Ericksen gave an analysis of double bus runs versus triple runs in the district. Tom Barney indicated that he had spent time counting students leaving on buses at the end of the day with an average of 8.5 per bus (13 buses). Colleen McKay added that seasonal sports and other factors contribute to low ridership on routes home and that bus drivers are required to do ridership counts several times a year. Ray Borden requested special education transportation costing per student. Ric Ericksen will add double runs versus triple runs and busing options on the next Transportation Committee agenda. Bob Soderberg requested information from GoRiteway regarding what they could do to reduce costs and make bus runs more cost effective, for review in the future.
7. Ric Ericksen informed the committee that representatives of St. Mary in Menomonee Falls were present to discuss a petition that was delivered to the district requesting transportation to St. Mary for students that live in the St. Boniface attendance area. At this time, transportation is not provided to these students however, transportation was approved several years ago for students in the St. Mary district to attend St. Boniface. The petition is requesting reciprocal service to now provide transportation for students in the St. Boniface attendance area to be transported to St. Mary. The committee requested a cost analysis from GoRiteway. The committee will continue discussion at the next meeting.
8. Motion by Barney, second by Soderberg to adjourn. Motion carried.
9. Committee Chair Tom Barney declared the meeting adjourned at 6:19 p.m.

AGENDA ITEM: V.A. Camera Surveillance Program

Below this line was the background reported to the Committee on May 3, 2017

In May of 2016 the Board of Education approved the Riteway contract which expanded the use of cameras on the buses.

I have asked Riteway officials to update the committee on the program. Additionally, I have invited building principals to attend this meeting to offer their comments.

Below is an extract of the clause (3.D.) from the Riteway Contract covering this obligation:

The Company shall provide interior camera systems capable of recording video and audio on buses regularly assigned to regular and special education routes. The viewing and use of any videotaped materials shall be in accordance with policies established by the District School Board.

As a follow-up to the May 3 meeting the Committee asked for additional metrics from Riteway in this regards --- please see next pages.

GERMANTOWN SCHOOL DISTRICT

TO: Board of Education **TOPIC:** St. Mary Busing Request
FROM: Ric Ericksen **BOARD MEETING:** August 14, 2017
DATE: July 24, 2017 **AGENDA ITEM:**

TC Agenda Item(s): VI. A.

Recommendation to the Board of Education and Finance Committee:

Pending discussions.

Background (Below this line is a repeat of the same background from the May 3, 2017 meeting):

A request was received from Mr. & Mrs. Rogowski to provide transportation for their child(ren) to St. Mary's school in Menomonee Falls. Their request is attached.

They live in the St. Boniface attendance area. The board is under no obligation to transport them, but may.

Subsequent to the request, I contacted officials from the Catholic Archdiocese, which is the governing body for determining Catholic School attendance areas; St. Mary's school; Riteway Bus Company; and Mrs. Rogowski. I had general conversations with all.

Keep in mind that the Archdiocese doctrine requires parish officials to make the determination on attendance boundaries.

The attached information from the Rogowski's has incorrect map contained in it – labeled as Attachment A. I confirmed with both the Archdiocese & St. Mary's officials that the map contained in my files is correct & current, and both organizations agreed. The map is attached.

In 2012 the school board analyzed the St. Boniface and St. Mary's bussing. It concluded that it would continue to transport student from the St. Mary attendance area defined as south of Donges Bay and east of Pilgrim roads to St. Boniface. While the board is not legal required to do so, it may.

Currently about 33 students are transported from the St. Mary attendance area to St. Boniface.

Germantown Wisconsin School Board
N104 W13840 Donges Bay Road
Germantown, WI 53022

Dear Germantown Wisconsin School Board,

This letter serves as a request for your consideration in providing equal access to bus transportation to all taxpaying members of the Germantown community to their school of choice. Our request is joined by fifteen (15) members of the Germantown School District community and is substantiated by two (2) principles.

- 1st We desire equal access to transportation from our Germantown residence to our school of choice and
- 2nd We deem the additional cost of transportation to be immaterial to the total cost of transportation in the Germantown school district.

First, we desire equal access to public transportation to our school of choice. Our request is supported by the following Wisconsin Statutes.

Per Wisconsin Statute 121.51(2)(c) "Transportation may be provided for all or some of the pupils who reside in the school district to and from the public school they are entitled to attend or the private school, within or outside the school district, within whose attendance area they reside."

The attendance area is defined in section 121.51(1) as "...the geographic area designated by the governing body of a private school...the attendance areas of private schools affiliated with the same religious denomination shall not overlap...". The catholic schools of St. Mary and St. Boniface are governed by the Archdioceses of Milwaukee which has outlined the attendance areas as highlighted in attachment A.

Further, section 121.54(2)(c) continues "...the school board of a unified school district may elect to provide transportation for pupils who are not required to be transported under this section...if transportation is provided, there shall be reasonable uniformity in the minimum distance that pupils attending public and private schools will be transported."

At the June 25th, 2012 Germantown School District meeting, the Board voted in favor of providing complimentary access to public transportation to St. Boniface students outside the St. Boniface attendance area. While the decision to offer complimentary access to transportation when not required is within the authority of the school board, it violates the statutes above by first providing an overlapping attendance area and second the access is not uniformly distributed to all members

of the Germantown community. Therefore, it is our request that the Germantown School Board considers uniformity and expands access to public transportation to all Germantown citizens to and from St. Mary private school.

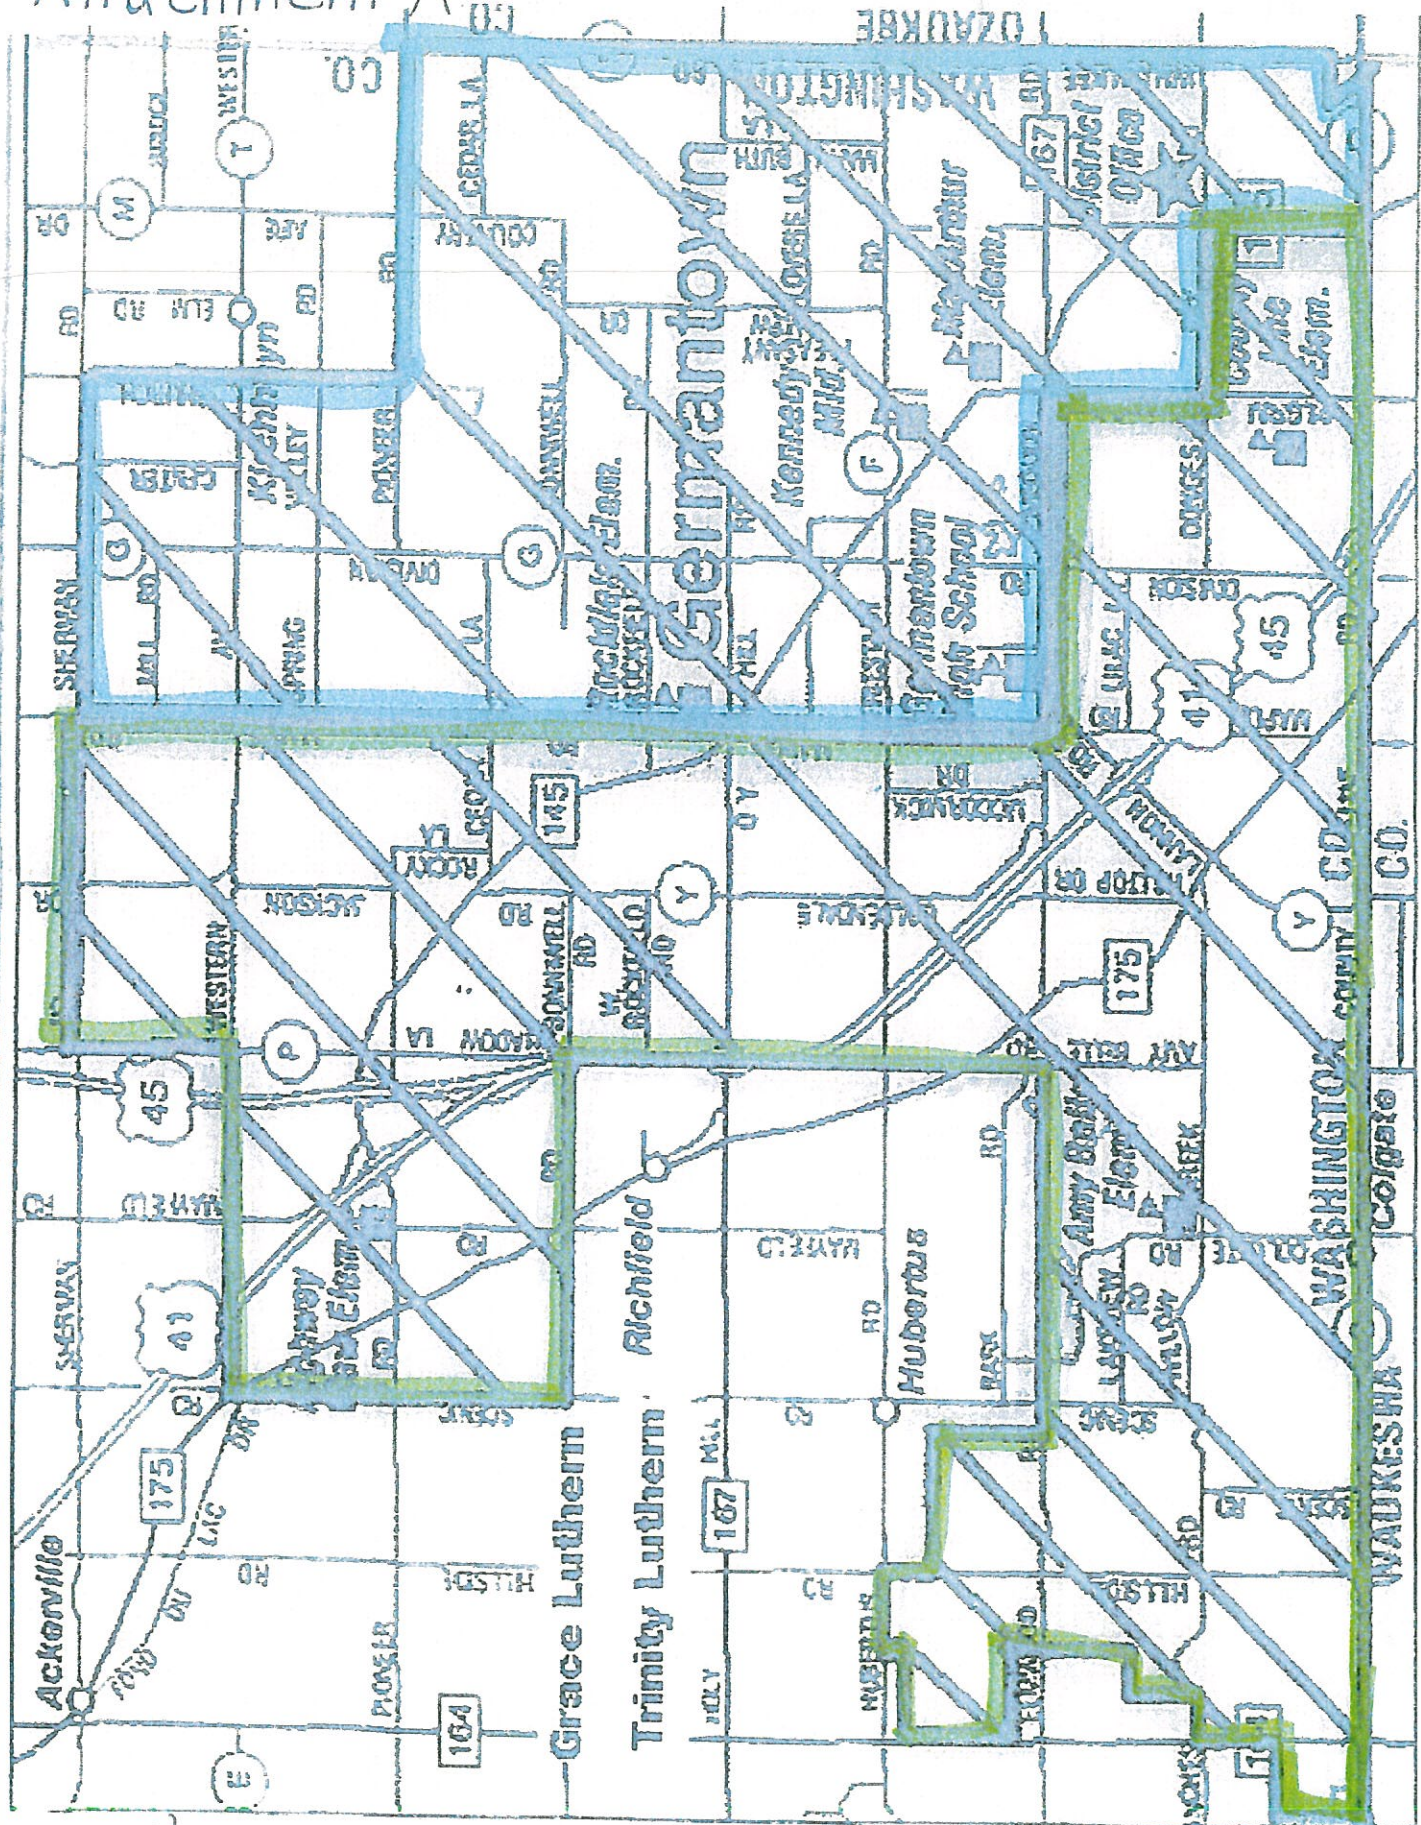

Second, we would like to address the possible concern that the cost of transportation would be a strain on the school transportation budget. We do not believe the cost to be prohibitive considering a number of economical options available to the Germantown School District. It is our understanding that Germantown pupils attending Grace Lutheran School on Kenwood Boulevard in Menomonee Falls receive access to transportation. Not only is Grace Lutheran less than two blocks away from St. Mary School on Cleveland Avenue, but the majority of the Germantown students requesting transportation are within a few blocks of current Grace Lutheran students. Therefore, it is our proposal to incorporate the students seeking transportation into existing bus routes for the Grace Lutheran School which has abundant excess capacity. Finally, it should be noted that the transportation cost-per-student would be comparable if not less than the cost of transporting the St. Boniface pupils outside their attendance area due to minimal overlapping bus routes. Please see map provided in attachment B which defines the distance from Grace Lutheran to St. Mary School.

In summary, we appreciate the Germantown School Board's careful consideration of its tax payers' petition for uniform access to economic transportation to all Germantown citizens to and from St. Mary private school. As mentioned, our request is joined and supported by fifteen (15) additional Germantown School District members in attachment C who are currently denied access to transportation. We look forward to an opportunity to discuss this matter at an upcoming board meeting.

Sincerely,

Mr. & Mrs. Chad Rogowski

Route 341 (AM & PM) transports 33 St. Boniface students (within the St. Mary's attendance area) to/from St. Boniface.

AM Cost - \$10.43 per day (single tier to double tier) x 180 days =	\$ 1,877.40
PM Cost - \$10.43 per day (double tier to triple tier) x 180 days =	\$ 1,877.40
TOTAL COST	\$ 3,754.80

Transportation Option for St. Mary's students (within the St. Boniface attendance area) Approximately 30 students

Current 7:45 a.m. to 3:00 p.m.

Route 345 - 40 minutes - 34 students

Route 346 - 40 minutes - 28 students

Option A

Absorbing additional students onto both existing routes.

Route 345 - 70 minutes - 49 students

Route 346 - 70 minutes - 43 students

Increasing the route lengths would require Route 345 & Route 346 to be run as Single route packages AM & PM.

Route 345 - \$195.46 per day x 180 days =	\$ 35,182.80
Route 346 - \$195.46 per day x 180 days =	\$ 35,182.80
OPTION A COST	\$ 70,365.60

Option B

Add 1 additional St. Mary's route AM & PM.

Route 347 - \$195.46 per day x 180 days =	\$ 35,182.80
OPTION B COST	\$ 35,182.80

NOTE: If an additional route is added both Routes 345 & 346 would be altered to even out route lengths to allow Routes 345 & 346 to still be part of a triple package.
