RE: GHS Schedule Change/Busing Change 2019-20

DATE: January 3, 2018

During the course of the 2016-17 school-year, the Germantown High School Building Leadership Team began a study and analysis of the daily schedules for high schools of similar size, demographics and academic programming. Scott Oftedahl helped create a template to compare the GHS 7:20-2:25 traditional seven period day to other schools and BLT members collected the data. It was clear that one facet, a Resource Period, was something that was desperately needed and missing from the current GHS model, but due to space constraints with classrooms and the Cafeteria, coupled with extensive busing, the ability to make the change at that time presented significant challenges.

When the referendum passed in November of 2016, discussions continued, amped up and various models of what the GHS schedule could look like were crafted and discussed with the Building Leadership Team, Department Chairs, School Counselors, Administrators and Directors. A limiting factor to schedule changes in the past has been transportation, which I have asked to be addressed once again. I met with Ric Ericksen regarding the proposed schedule for 2019-20, which takes us to two lunch periods (instead of three), incorporates a Resource Period for multiple functions (Academic and Career Planning, extra time with teachers, club meetings, interest-based cross curricular activities, etc.), and extends our school day for instructional time. We began with four initial options, but option one appears to be the best for our students (please see attached). Ric met with Riteway about my request.

Based on the positive changes in facilities, the dire need for a Resource Period, the inclusive comprehensive model we have worked hard at establishing, along with the support for our programming from the Germantown School District Board of Education and Directors, I am respectfully pleading for the ability to work with Riteway to support slightly extending our school day and the subsequent transportation changes that are necessary to accomplish that goal. This would begin with the 2019-20 school year. Thank you in advance for your consideration and support.
