

Marysville School District High School

2021 Summer **Online** Credit Retrieval Program

Session 1: June 23 to July 2 / Session 2: July 7 to July 16

Logistics and Information:

- 2 summer school sessions are offered; each consists of 8 school days. Session 1 begins on June 23 and ends on July 2. Session 2 begins on July 7 and ends on July 16.
- During each session, there will be AM and PM classes provided:
 - **AM Class Times**
 - 9AM - 10:30AM; Asynchronous learning and teacher office hours.
 - 10:30AM - 12PM; Synchronous learning; students are expected to attend class on Zoom.
 - **PM Class Times**
 - 12:30PM - 2PM; Synchronous learning; students are expected to attend class on Zoom.
 - 2PM - 3:30PM; Asynchronous learning and teacher office hours.
 - **Daily “Delayed” Response Assistance:**
 - Teachers will be available for assistance by email outside of 9AM - 3:30PM and will respond within 24 hours.
- Students will have 1.5 hours of synchronous learning and 1.5 hours of asynchronous learning for each class. Synchronous learning is when students will be expected to be in a Zoom session with their teacher. Asynchronous is independent learning.
- Teachers will hold office hours during asynchronous learning times and be available on Zoom for immediate assistance. See times below.
- Students may receive a semester half credit for each class they attend and complete.
- Students may attend both Session 1 & Session 2 classes for a maximum of 4 classes and 2 credits. For class size purposes, students registering for only 1 or 2 classes will automatically be enrolled in Session 1. Classes offered during Session 2 are based on student enrollment.
- Students who take Session 1 classes and fail or need more time to complete their work will have the opportunity to re-register for that same class Session 2 if there are enough students registered to offer the course.

Retrieval Credits Available:

- 1st & 2nd-semester courses are available for grades 9-12. Courses Available: English for grades 9-12, Algebra 1 & 2, Geometry, Biology, Physical Science, Chemistry, US History, CWP, Civics, WA State History, World History, Geography, PE and Art
- On the registration form, students may also list other classes they would like to retrieve credits for that are not on the list.

- Final course offering is dependent upon the number of students registered. Other courses may be added depending upon student interest.
- Please note: Students must have regularly attended and failed or received an incomplete in their regular high school class in order to be eligible to take a credit retrieval class. The amount of general knowledge a student gained and the efforts they put into a course during the regular school year is a direct indicator of whether or not they will be successful in a summer school credit retrieval course.

Attendance, Grading & Work Expectations:

- Teachers will establish work goals and expectations for students that are based on standards set for each course.
- Teachers and/or a paraprofessional will check-in with a student's progress towards goals via email or video appointments.
- Summer school course completion is based on students demonstrating their knowledge of set standards within each course they enroll. Once a student has demonstrated this knowledge they will receive a "Pass" grade and credit for the course.
- Teachers will work with students to provide opportunities throughout a session for them to prove their knowledge of the standards in a course. Students demonstrating that knowledge prior to the last day of a session may immediately receive a "Pass" grade and credit. With teacher permission, the student may then be dismissed early from the course.
- Although no daily attendance is taken, failure to engage in assigned classwork, assessments, mandatory video class sessions, or one-to-one appointments set by the teacher will result in loss of credit & any reimbursement for class fees paid.

Cost - Free for all 2020/21 9-12 students registered in the Marysville School District

Online Registration Instructions:

1. Go to www.msd25.org
2. On the menu, click on "Students and Families"
3. Use the drop-down feature and click on "High School Summer Extended Learning".
4. Click on the link to complete the online registration form. Read the directions carefully and complete each section. Click submit when finished.
