Welcome to Economics. You will earn 0.5 credits toward HS graduation upon successfully completing this course.

## How to Grade Student Assignments

Most assignments are graded by the system, however written work will need to be scored by a teacher or grader. Click on a course name and select the gradebook tab. If an assignment needs to be graded, you will see a paper icon in the gradebook. Click on the icon to open the Grade Editor window.

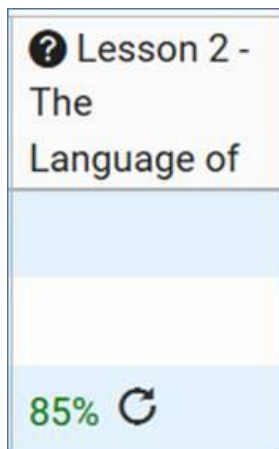

Progress Tracking				Gradebook	
UNIT SUMMARY				FOR ME	
				Origins of Our Government	
				Assignment: Origins of Our	Quiz: Origins of Our Government
		83.33%	B		83.33%
		83.33%	B		83.33%

After viewing the work to the left inside the pop-up window, type a score into the score field or choose Full Credit or No Credit. Once you have given the student a score, click Submit Score.

A screenshot of a grade editor pop-up window. At the top right, it says "Score: [yellow box] / 100". Below this are three buttons: "FULL CREDIT", "NO CREDIT", and "CLEAR". In the center, there is a status bar that says "✓ completed, 📄 needs grading". Below the status bar are two buttons: "SAVE DRAFT" (with a floppy disk icon) and "SUBMIT SCORE". At the bottom, there are three buttons: "✗ EXCUSE", "↻ ALLOW RETRY", and "🗑️ OVERRIDE COMPLETE".

### How to Reassign Lessons/Quizzes

Teachers can reassign quizzes in the same way. Once the grade editor box pops up, click Allow Retry. A circular arrow icon will appear in the grade book to indicate that the student's test was reassigned.

A screenshot of a grade book entry. The top section is titled "Lesson 2 - The Language of". Below this is a large empty box for a score. At the bottom, it shows "85%" in green text next to a circular arrow icon, indicating a retry.

### How to skip specific assignments

In the gradebook, teachers can excuse students from an assignment (see grade editor box pic above) An X will appear in the gradebook if a student has been excused.

### Hiding Assignments in the Course Editor

Teachers can hide assignments from all students in a course by changing the visibility.

Teachers can also delete a lesson or activity if they prefer to teach that skill through direct instruction/blended learning.

Teachers can hide lessons for specific students if they first create a group, assign a student to the group, and edit group settings. (See group handout).

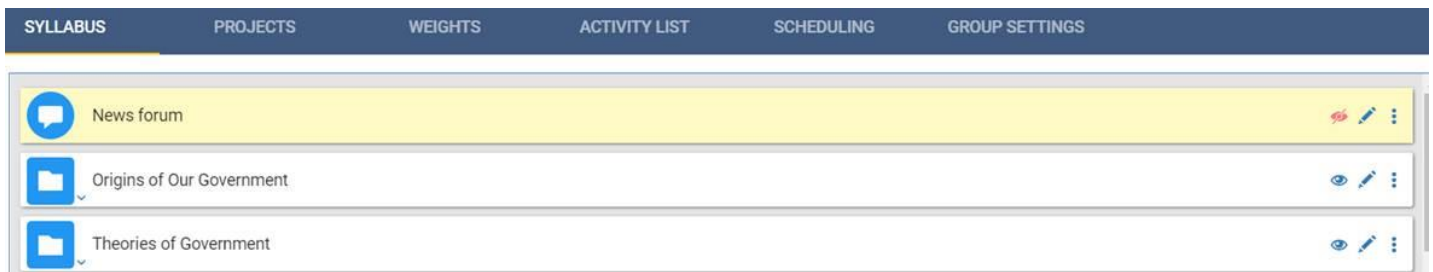

To access the Course Editor, click the Course Setup link at the right-top. Next, click the Open the course... link at the top to edit the course in a new tab.

Click the eyeball icon to hide assignments from students.

Click the pencil icon to edit.

Click the three-dot icon to access Preview or Delete.

## Changing Passwords

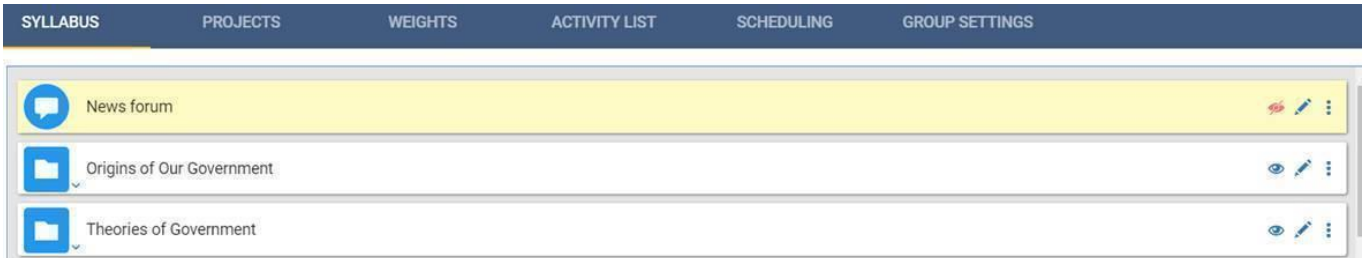

## 1C - American Government

Default Length: 180 real days from enrollment

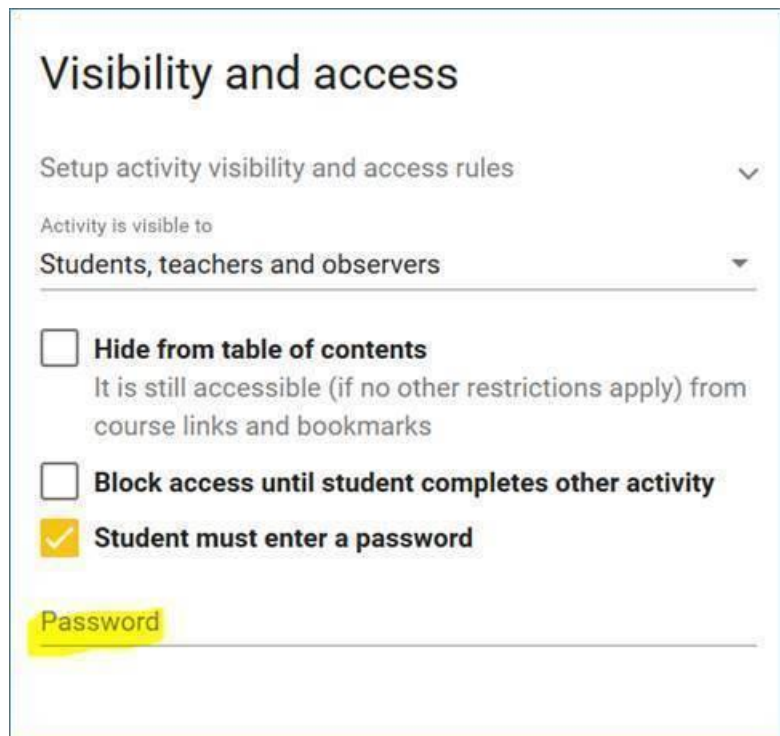

Open the Course Editor in a New Tab...

Click the pencil icon to edit a quiz and you can access the password settings.

The screenshot shows the top navigation bar of the course editor with tabs: SYLLABUS, PROJECTS, WEIGHTS, ACTIVITY LIST, SCHEDULING, and GROUP SETTINGS. Below the navigation bar, there is a list of activities. The first activity is 'News forum' with a speech bubble icon. The second is 'Origins of Our Government' with a folder icon. The third is 'Theories of Government' with a folder icon. Each activity has a pencil icon and a trash icon to its right.

You may see an encrypted password, which is not the actual password. You can type over it and save or delete it and save it blank.

The screenshot shows the 'Visibility and access' settings for an activity. The title 'Visibility and access' is at the top. Below it is a section 'Setup activity visibility and access rules' with a dropdown arrow. Under this section, it says 'Activity is visible to' followed by a dropdown menu showing 'Students, teachers and observers'. Below this are three checkboxes: 'Hide from table of contents' (unchecked), 'Block access until student completes other activity' (unchecked), and 'Student must enter a password' (checked). At the bottom, there is a 'Password' field with a yellow highlight.

You can also bulk edit passwords in the Activity List for the course by choosing the assessments you want to password protect and clicking the pencil icon.

The screenshot shows the bottom navigation bar of the course editor. The 'ACTIVITY LIST' tab is highlighted in green. To its right are 'SCHEDULING' and 'GROUP SETTINGS' tabs. Above the tabs, there are four icons: a wrench, a magnifying glass, a trash can, and a pencil.
