**PIERCE CITY R-VI SCHOOL DISTRICT  
EDUCATIONAL PHILOSOPHY**

A philosophy of education is the foundation on which a school district is built and upon which the product of the school program is evaluated. We believe that education plays a vital role in a global community. The philosophy herein subscribed to by the Board of Education shall be a guide in determining the policies, rules, and regulations of the school district.

Recognizing each student as a unique individual, we believe that education should provide an opportunity for the maximum development of each individual within the limitations of his or her capacities. Through education, it is possible for the individual to discover and endeavor to achieve to the limits of his or her capacities.

We believe that the role of the community in education must help the student realize his or her worth as an individual and should lead him or her toward becoming a productive member of society. Strong emphasis must be placed upon democratic values, which are important for an effective and satisfying personal and social life.

We believe that the role of the teacher in the educational process is to provide opportunities for the individual to achieve at the maximum level of capacity, to create a learning situation in which individual motivation for learning is the stimulus for achievement, and to situation in which individual motivation for learning is the stimulus for achievement, and to promote through teaching and example the principles of the democratic way of life.

We believe that parents/guardians have definite responsibilities in education. They need to have a basic confidence in the school, and they need to impart the confidence to the students. The parents/guardians may do this by cooperating to the fullest with the school, be encouraging the student to give his or her best efforts to the daily school responsibilities, and by participating in school activities.

We believe that the student must have responsibilities in the educational program of the community. The most important of these are attitude and self-discipline. The student is obliged to come with an open mind, equipped with all the necessary materials, ready to fulfill his or her responsibilities in the learning process. The basic attitude should be that the school is an institution of opportunity, staffed with trained personnel to help the student become a contributing member of society.

We believe that the foundation of the district's educational program is based on the development of competencies in the basic fundamentals of reading, oral and written communication, and mathematics.

**SCHOOL HISTORY**

Construction of the first school building in Pierce City was started in 1871 and completed in 1872. This fine red brick edifice was located at the top of Walnut Street and was called Central School. It housed the elementary grades in the four large ground level rooms and the high school in the top two “tower” rooms. In 1905 Pierce City High School moved out of “Old Central” and into the building, which had just been vacated by Pierce City Baptist College. The building had been erected in 1879 and stood approximately where the original main part of our campus stands now. On the snowy evening of January 18, 1918, this original building burned and was replaced by the building our students now refer to as the “old building”. The first high schools students moved into this building in December 1921. Time and progress have enlarged our facilities to their current occupation of more than two city blocks. The future will surely hold more growth and progress.

**Notification of Asbestos Re-inspection and Surveillance**

To: Parents and Staff:

August 1, 2017

In compliance with the U.S. Environmental Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA) In June of 1988, the Pierce City School District performed inspections of each of our school buildings for asbestos containing material. The inspection findings and asbestos management plans have been on file in each school administrative office since that time.

The EPA requires our district to perform re-inspections of the asbestos materials every 3 years. During the month of December 2016, accredited asbestos inspectors performed these re-inspections. An accredited Management Planner reviewed the results of the re-inspections and recommended actions that our district should take to safely manage each asbestos material in our buildings.

The results of the re-inspection are on file in the management plan in the school's administrative office. Individuals interested in viewing the file or the contents therein are welcome to do so during normal business hours (Monday-Friday 8:00 a.m. to 4:00 p.m.). The asbestos Program Manager, Gary Saffer, is available to answer any questions you may have about asbestos in our school facilities.

All areas that contain asbestos either friable or non-friable are monitored constantly and are checked by an accredited AHERA inspector every six (6) months to insure no deterioration of their condition. This inspection is performed to assure proper health and safety conditions for all students, staff, employees, and constituents of the school district.

Respectfully,

Russ Moreland  
Superintendent of Schools

**SCHOOL DAY**

Students are not to be in any school building before 7:50 a.m. or after 4:00 p.m. unless involved in a supervised school activity. Students receiving tutoring can enter the building at 7:20 a.m. Afternoon tutoring should be scheduled with the individual teacher.

For students riding the bus, the school day starts when the student boards the bus and ends when the student returns home on the bus. Students will not be let off at unauthorized stops either to or from school. When students arrive at school on the bus, they will not be allowed to leave campus prior to school starting.

For students who drive, the school day starts when the student drives on campus. Once they arrive at school, students may not leave until school is out for the day and the buses have left.

For students who walk, the school day begins when the student leaves home with the intent of coming to school. Their day ends when they arrive back at home or are turned over to the care of their legal guardian or parent.

Parents should not drop off or leave students at the school during unsupervised periods.

### **SCHOOL CLOSINGS**

In case of inclement weather or other emergencies, parents and students should listen to local media for notification or school closings. If the closing of school becomes necessary, all area radio and TV stations will be notified early in the morning.

Local media will also be notified if school is forced to dismiss early because of inclement weather or other emergency situations.

An automated call to parents/guardians will be sent to notify parents of any changes to the school day. In order to receive the calls parents should notify the high school office when a contact number has been changed.

### **A+ SCHOOLS PROGRAM**

The Pierce City R-VI school system is proud to be an A+ school. For more information about participating in this program contact the High School office or the A+ coordinator for more information.

### **SCHEDULE CHANGES**

Students should make their schedules in the spring with serious consideration so that few changes have to be made when school starts in the fall. Any student who desires a change of schedule before school opens in the fall should contact the office during registration.

During the first two days each semester, the office will change schedules only if it is absolutely necessary. Students are not to miss class to change schedule unless sent for by the office.

### **TRANSFER OF STUDENT**

Students transferring from PCHS to another school should notify the office as soon as possible, turn in all school-owned books and equipment to the teachers involved, and on the last day in attendance here, obtain a clearance form from the office. This form must be properly completed for grades and credits to be sent to the new school. The district will transfer student records, including discipline records, to another school district where the student is seeking to enroll upon receiving a transfer request from the district in which the student is transferring.

### **HUMAN SEXUALITY CURRICULUM**

The Board of Education recognizes that parents/guardians are the primary source of sexuality education for their children. The Board also recognizes that effective sexuality education, taught in concert with parents/guardians, helps students avoid risks to their health and academic success and prepares them to make informed decisions as adults. Therefore, pursuant to requirements of state law, if the district chooses to use any course materials and instruction relating to human sexuality and sexually transmitted diseases the materials and instruction shall be medically and factually accurate and shall:

1. Present abstinence from sexual activity as the preferred choice of behavior in relation to all sexual activity for unmarried students because it is the only method that is 100 percent effective in preventing pregnancy, sexually transmitted diseases and the emotional trauma associated with adolescent sexual activity. Students shall be advised that teenage sexual activity places them at a higher risk of dropping out of school because of the consequences of sexually transmitted diseases and unplanned pregnancy.
2. Stress that sexually transmitted diseases are serious, possible health hazards of sexual activity. Students shall be provided with the latest medical information regarding exposure to human immunodeficiency virus (HIV), acquired immune deficiency syndrome (AIDS), human papilloma virus, hepatitis and other sexually transmitted diseases.
3. Present students with the latest medically factual information regarding both the possible side effects and health benefits of all forms of contraception, including the success and failure rates for the prevention of pregnancy and sexually transmitted diseases, or present students with information on contraceptives and pregnancy in a manner consistent with the provisions of the federal abstinence education law.
4. Include a discussion of the possible emotional and psychological consequences of preadolescent and adolescent sexual activity and the consequences of adolescent pregnancy, as well as the advantages of adoption, including the adoption of special needs children, and the processes involved in making an adoption plan.
5. Teach skills of conflict management, personal responsibility and positive self-esteem through discussion and role playing at appropriate grade levels to emphasize that the student has the power to control personal behavior. Students shall be encouraged to base their actions on reasoning, self-discipline, sense of responsibility, self-control and ethical considerations, such as respect for one's self and others. Students shall be taught not to make unwanted physical and verbal sexual advances or otherwise exploit another person. Students shall be taught to resist unwanted sexual advances and other negative peer pressure.
6. Advise students of the laws pertaining to their financial responsibility to children born in and out of wedlock and advise students of the provisions of chapter 566, RSMo., pertaining to statutory rape.

The district will not permit a person or entity to offer, sponsor or furnish in any manner any course materials or instruction relating to human sexuality or sexually transmitted diseases to its students if the person or entity is a provider of

abortion services. District personnel or district agents will not encourage students to have an abortion.

Students may be separated by gender for human sexuality instruction. Instruction in human sexuality is to be appropriate to the age of the students receiving such instruction.

7. Teach students the characteristics of and ways to identify sexual predators, the safe and responsible use of the internet, including the dangers of online sexual predators, the potential consequences of inappropriate texting, and the importance of open communication with responsible adults regarding any inappropriate situation, activity or abuse.

The district is required to notify the parent/guardian of each student enrolled in the district of the basic content of the district's human sexuality instruction to be provided to the student and of the parent's/guardian's right to remove the student from any part of the district's human sexuality instruction. The district is required to make all curriculum materials used in the district's human sexuality instruction available for public inspection as a public record prior to the use of such materials in actual instruction.

**Please refer to Board Policy IGAEB**

### **GRADING SYSTEM**

Grading system at PCHS is as follows:

A – Excellent	D – Inferior
B - SUPER COOL	F - TOO BAD
C - Average	INC – Incomplete

Students who have been irregular in attendance due to medical reasons may receive an “Inc” (incomplete) grade with approval from administration. An “Inc” given must be removed within two (2) weeks after the quarter ends or the grade automatically becomes an “F” unless other arrangements are made with administration. Parents are invited to discuss their child’s progress with classroom teachers, principal, and the counselor. Please contact the office to set up an appointment.

PCHS is on a semester grading cycle. Grades will be determined by dividing the total points earned for the semester by the total points possible. Homework points will not be calculated in the final grade. Grades will be determined by formative assessments, summative assessments, and student projects. Reassessment opportunities will be provided in eight week intervals. Summative assessments may be reassessed but relearning strategies are required in advance. Below are the letter grades for the percentage earned.

100-94 = A	93-90 = A-	89-87 = B+
86-84 = B	83-80 = B-	79-77 = C+

76-74 = C            73-70 = C-            69-67 = D+  
 66-64 = D            63-60 = D-            59-0

**WEIGHTED GRADE POINT SYSTEM**

In order to reward a student who enrolls in designated upper level courses, Pierce City High School uses a weighted grading system, which awards bonus points that are applied when calculating the student's GPA. The following is a list of weighted classes offered at PCHS.

College Algebra                                  College Biology  
 College Composition                              College Western Civilization

The point system for figuring class rank and GPA in weighted courses is as follows:

<u>Grade</u>	<u>Points</u>	<u>Bonus Points</u>	<u>Grade</u>	<u>Points</u>	<u>Bonus</u>
A	11	3	C	5	1
A-	10	3	C-	4	0
B+	9	2	D+	3	0
B	8	2	D	2	0
B-	7	2	D-	1	0
C+	6	1	F	0	0

**PROGRESS REPORTS**

Progress reports will be sent to parents at Weeks 5, 10 and 15 of the grading periods. These notices are to advise parent's throughout the grading period. Parents may also view student information using the Student/Parent portal on the internet. For more information on the portal please contact the high school office at 476-2515.

**REPORT CARDS**

A student at PCHS will receive a grade on their report card at the end of each semester to indicate proficiency in each subject taken.

School marks are affected particularly by attendance, preparation of assigned work, quizzes, and tests.

**HONOR ROLL**

An Honor Roll is compiled at the end of each semester on the basis of grades earned during the preceding quarter. The Honor Roll lists are distributed to local newspapers of publication.

Students with a grade point average of 10.75 and above will qualify for the “Principal’s List”. Students with a grade point average of 10.74-10.00 will qualify for the “Excellence Honor Roll”.

### **ACADEMIC LETTER REQUIREMENTS**

An academic letter will be awarded to those students meeting the following standards:

#### **STANDARDS**

1. Students who earn a 10 point grade point average on an eleven point scale for both semesters of one school year.
2. Students must be enrolled for credit in at least six courses.
3. Students must be enrolled for credit in at least four core-courses OR three core-courses and one weighted class.
4. No grades lower than a B- for any semester in the school year.

### **STATE ASSESSMENTS**

End-of-course (EOC) assessments will be administered in accordance with law and the rules of the Department of Elementary and Secondary Education (DESE). In courses where EOC assessments are given, the superintendent will determine what percent of the course grade will be decided by performance on EOC assessments.

If a student is taking a course that requires an EOC assessment and is failing the course or for some other reason may be required to retake the course, the district may choose to delay administration of the EOC assessment until the student has completed the course the second time. A team consisting of the course instructor, the principal and a counselor will determine when delayed administration of an EOC assessment is appropriate. In the case of a student with an individualized education program (IEP), the IEP team will make the determination.

### **EARLY GRADUATION POLICY**

Students who wish to graduate early will be required to meet with a guidance counselor and submit written notification to the principal. The guidance counselor will notify the student's parents or guardians of the student's decision if the student is a dependent. The student will receive a diploma if the student has met the Pierce City R-VI School District's graduation requirements.

The student who chooses early graduation will be allowed to participate in the spring graduation ceremonies but will be considered an alumni for all other activities.

### **VALEDICTORIAN AND SALUTATORIAN**

Each school year two members of the graduating class will be named as valedictorian and salutatorian. The person with the highest grade point average after seven semesters will be designated as valedictorian. The second ranked student after seven semesters will be salutatorian.

Students must be enrolled at Pierce City High School for the last 4 consecutive semesters of high school to be eligible to be valedictorian or salutatorian.

#### **EXTRA CURRICULAR ACTIVITIES**

When students represent our school at athletic events, band contests, or other activities, the same rules, regulations, and behavior guidelines apply as if the students at school bind them. Misconduct on a trip is magnified because our school suffers for it and, therefore, such behaviors will be considered more serious when reported. Attendance at school is a pre-requisite for participation in any extra-curricular activity, including practice, play, or any type of participation in any activity that day or evening, unless the student has been excused by the principal.

#### **ELIGIBILITY**

In order to emphasize student achievement, the Pierce City R-VI School District requires the following conditions for students to be eligible to participate in any extra curricular event. This also includes school-sponsored dances. (Jr. Sr. Prom is excluded from this policy.)

Progress will be checked at weeks 5, 10, and 15 of the semester. Students with 1 F will remain eligible. Students with 2 F's will be ineligible until next grade check. They will regain eligibility if they have less than 2 F's. Students with one F at the end of the semester will remain eligible. Students with 2 F's at the end of the semester will be ineligible the entire next semester per MSHSAA guidelines.

#### **STUDENT COUNCIL**

The student council is the highest ranking student organization in high school. It serves as a medium of student participation in school administration. Its purposes are fostering opportunities for student participation in the betterment of the school, expressing of individual ideas, encouraging the proper attitude of the students within the school and away from school, improving the care of the building and its contents, and acting as a connecting link between students and administration. For specific details, refer to the constitution provided on request from the office.

Each organization on campus desiring to recognize its members with a school letter or symbol that can be publicly displayed must establish standards for the award. Each organization will have a different symbol, and no student is to wear

the symbol of any organization unless he/she has met the standards. To avoid conflict between organizations, the Student Council will approve and pass on all symbols to be used and then present them to the principal for approval.

#### **SCHOOL INSURANCE**

School insurance for each student is optional. If a student is involved in any extracurricular activity and elects not to purchase this insurance, the parent or guardian must complete and sign a waiver indicating they have insurance coverage for the student.

The school offers this insurance only as a service to its students and receives no income from the sale of these policies. It should be understood that the school is not liable for the balance of any expenses that this type of policy will not cover.

Parents should read carefully the description of benefits they are purchasing and deal directly with the company. THE SCHOOL IS NOT INVOLVED.

### **FIRE AND STORM DRILLS**

Fire drills will be held to acquaint students and teachers with an orderly evacuation of the building. The fire signal is that of a continuous beep. After a series of tones, voice instructions will follow. When you hear this signal, stop what you are doing and leave the room in single file, walking rapidly to the exit directed by the teacher. Generally speaking you should follow adjacent walls to avoid cross traffic. Proceed to a point about seventy-five (75) feet from the building, where the class will assemble as a group. Return to the building ONLY when the all-clear signal is given.

Storm drills will also be held to acquaint personnel with “take cover” procedures. Voice instructions is the signal for students to evacuate to the storm shelter. In case time does not permit students will be instructed to take cover (on knees) near lockers or other areas designated by a school authority. Avoid locations near windows and doors. Stay out of the gymnasium and auditorium! Students will remain in “take cover” position until voice instructions give the “all clear” signal for students to return to class.

Lock-down is a continuous bell. When this is heard all students are to remain in the classroom and the classroom teacher is to lock all doors and windows until further instructions are given.

In the event of an earthquake students should “drop, cover, and hold on” until the shaking stops.

Building and campus maps outlining these emergency procedures are displayed in each classroom. Please notice and become acquainted with the maps.

### **LOST AND FOUND**

Students are responsible for the care of their own personal property. They should also be considerate of property belonging to others. If articles belonging to others are found, turn them into the office. If you lose anything, inquire at the office. **Do not bring valuable articles to school.** If something of value is brought to school, the student may bring it to the office for safekeeping.

### **BUS TRANSPORTATION**

Riding a bus is a privilege, not a right. Misbehaving on a school bus is cause for bus suspension. Parents are bound by law, in this situation, to provide transportation to and from school during the time of suspension. If a student rides a bus on which he is not assigned, special permission must be given by the office. Written permission from a parent or guardian will be required.

### **DRIVING AND PARKING**

Driving to school is a privilege, not a right. A permit to drive must be on file in the principal's office. Students may lose their privilege to drive to school for parking violations.

Students who have permits to drive their vehicles to school must park in designated student parking areas.

Upon arrival at school, the student will park his/her vehicle and leave it until the end of the day. Only in certain predetermined situations will students be allowed to use their vehicles during school hours. **Students are not to go to their cars during the school day without permission from the office.**

### **STUDENT PASSES**

Students who have business outside their regular classroom or hallways must be issued a pass by the teacher permitting them to leave. Teachers are not to permit students outside their classroom without a pass.

### **ATTENDANCE POLICY**

Students will be allowed 6 class periods per semester to take care of minor sickness, doctor/dentist appointments, short vacations, or any other personal needs or responsibilities. No penalties will be assessed for the classes missed up to six.

The class periods are to accommodate:

1. Personal illness
2. Death or illness in the family
3. Doctor or dentist appointments
4. Injuries
5. Religious holidays
6. Drivers license tests
7. College visits
8. Court appearances

In the event a student misses more than the allotted 6 classes per semester, NO credit will be earned for any class from which the student has been absent more than the allotted 6 class periods. The only exceptions would be an extended illness or injury under a doctor's care and verified by medical documentation.

Appeals committees will be available for any student who exceeds the 6 day limit and feels that extenuating circumstances were present. This committee will be comprised of three individuals. This committee will convene at the request of the student. At that time the student and parent or guardian will present to the committee any conditions that might be justifiable reason for any excessive absences. The decision of this committee will be considered final; however, further appeal can be made to the Pierce City R-VI School Superintendent and then to the Pierce City Board of Education.

### **SEMESTER EXAMINATIONS**

Comprehensive semester exams shall be given each semester to all students of the high school. There shall be an adequate, but not excessive review of the material by the teacher with the students to assist them in organizing their material for the semester examinations.

Examination dates shall be established each semester by the principal.

**Examinations shall not be given in advance of the date scheduled, except in emergency cases as determined by the principal.** Students who are unable to take the examination as scheduled because of illness shall make an appointment with the teacher or principal to take the examination at a later date.

**All semester finals are to be worth a total of 10% of the total semester points for each class (example: total points for semester =750 points, final is worth 75 points) and be figured into the semester grade.**

### **FINALS EXEMPTION POLICY**

In an attempt to reward exemplary attendance, the following policy shall be in effect:

1. Students who are absent from school no more than fourteen (14) cumulative blocks of class time, (including excused and unexcused absences, but not including absences due to attendance at school sponsored events) **and** are passing all classes (for the semester) enrolled in with no grade lower than a C- may be exempt from semester examinations. Test exemption is a decision for individual students and parents to make. Students eligible for test exemption may elect to take semester examinations without risk of lowering their grade. Students who qualify for finals exemption will be dismissed from school during finals. Absences will still be counted during the finals schedule if a student is not at school but will not be assessed a penalty. Finals are to be figured as part of the total semester grade.
2. Students failing to meet both exemption criteria must take **ALL** final exams.
3. A student, who misses more than four (4) cumulative blocks of class time in any one class, will also be required to take finals in all classes that the student is currently enrolled.
4. Students who are enrolled as part-time are allowed two blocks of absence per block enrolled to be excused from finals. Part-time students who miss more than four blocks in any one class will be required to take finals in all classes they are enrolled.
5. Scott Tech students are not exempt from taking finals at the Career Center. Scott Tech students may miss up to 8 blocks (number enrolled at PCHS) and be exempt from finals at PCHS. Students are responsible for completing requirements set forth by the Scott Technical Career

- Center. Our policy does not excuse students from finals at the Career Center.
6. Finals exemption does not apply to dual credit courses or EOC courses.

### **MAKE-UP WORK**

Students who are absent are responsible for contacting the teachers of the classes missed and determining what assignments must be completed. THIS IS THE STUDENTS RESPONSIBILITY! Students will be given two (2) school days to make up work for each day of absence. Any work not turned in by the required date will be recorded as a zero. The school suggests that if a student is going to be absent three (3) or more days, parents contact the principal's office (476-2515) and request homework.

### **TARDINESS**

If you arrive late to school, you must report to the office for an admit slip. All tardies are unexcused unless the office or a teacher has detained you. Be sure to ask for a slip signed by the person who detained you before going to your next class.

### **TARDY POLICY**

3<sup>rd</sup> Tardy in one class/semester = after school detention

6<sup>th</sup> Tardy overall/semester = Friday School

Every tardy after 3 per class or 6 overall = Friday School

### **DRESS CODE**

Pierce City High School expects student dress and grooming to be neat, clean and in good taste, so that each student may share in promoting a positive, healthy, and safe atmosphere within the school district. Students are expected to dress appropriately for school and in a manner that will not disrupt the teaching/learning process or cause undue attention to an individual student.

Items of clothing such as muscle shirts, tank tops, halter tops, shirts that show the bare midriff, and other types of sleeveless shirts, including spaghetti straps, are not allowed. Skirts and shorts should be at an appropriate length that does not interrupt the learning environment. Leggings or tights must be accompanied by a skirt, shorts or top that is appropriate length.. Hats, caps, chains, (at principal's discretion), gang related attire, or bandannas are not to be worn by boys or girls inside the school building. Letters on clothing that suggest vulgarity or advertise alcohol or tobacco products will not be permitted. All students must wear shoes, boots, or some other type of footwear.

When, in the judgment of the staff member, a student's appearance or mode of dress disrupts the educational process, or constitutes a threat to health or safety, the student may be required to make modifications.

Violation of the dress code policy can result in an after school detention. Subsequent offenses may result in detention, Friday school or ISS.

### **STUDENT CITIZENSHIP**

A school is in a true sense a community, with many of the advantages and some of the problems, of society in general. Part of your education is for you to learn to use good judgment in dealing with various situations. You should be responsible for your actions. The staff is here to counsel and assist you in this area.

Our hallways will be kept free of running, scuffling, loud talking or boisterous behavior. Any student participating in these activities will be subject to disciplinary action

### **SCHOOL LUNCH PROGRAMS**

The lunch program operates for the welfare of our students. Since it operates on a non-profit basis, and considering the fact that the government shares somewhat in the cost of the operation, our lunch program provides balanced meals at a reasonable price.

1. Students will obtain a lunch card from the office.
2. At the beginning of designated lunch periods, students will proceed in an orderly manner to the cafeteria, line up in the proper line, and proceed past the serving counter in an orderly manner.
3. Students will return plate, table service, and milk containers to the appropriate place.
4. Students who bring their lunches must eat them in the cafeteria. Sacks and waste material must be placed in the receptacle provided for that purpose.
5. Students will not leave the campus to obtain lunch elsewhere. We have a closed campus.
6. All food will be eaten in the cafeteria- not elsewhere in the building.

### **VISITORS**

Parents of students, former students, and others may wish to visit the school. All visitors shall report to the office immediately to pick up a Visitor's Pass. Classroom visits are welcome if the teacher involved has given his/her approval. Visitor's passes will not be issued to anyone whose presence may interfere with the goals of PCHS. Students from other schools will not be issued a pass.

### **LIBRARY**

In order to gain maximum and proper benefit from our library facilities, the following regulations pertain to its usage:

1. All persons coming into or leaving the library during a class period must sign in and out.
2. Quiet and order must prevail at all times.
3. Do not remove material from the library unless it has been properly checked out. Fines are assessed for overdue and damaged material.
4. Most books are due two weeks after being checked out. Reserve books may be checked out for one period or overnight only.
5. Everyone should exercise reasonable care in using magazines and other paperbound materials so they will remain usable as soon as possible.
6. At the end of each period, all library materials used must be returned to the proper shelf or rack. Do not leave magazines, reference books, etc., on the library tables.
7. Keep in mind that the library is a laboratory, which helps prepare students to go into life activities with knowledge of present-day conditions.
8. Students must return to class from the library by 3:30..

Pierce City High School assures that personally identifiable information collected, used, or maintained by the agency for the purposes of identification, evaluation, placement or provision of FAPE of children with disabilities may be inspected and/or reviewed by their parents/guardians. Parents/guardians may request amendment to the educational record if the parent/guardian believes the record is inaccurate, misleading, or violates the privacy or other rights of their child. Parents have the right to file complaints with the U.S. Department of Education or the Missouri Department of Elementary and Secondary Education concerning alleged failures by the district to meet the requirements of the Family Educational Rights and Privacy Act (FERPA).

Pierce City High School has developed a Local Compliance Plan for the implementation of State Regulations for the Individuals with Disabilities Education Act (IDEA). This plan contains the agency's policies and procedures regarding storage, disclosure to third parties, retention and destruction of personally identifiable information and the agency's assurances that services are provided in compliance with the General Education Provision Act (GEPA). This plan may be reviewed in the Special Education Coordinator's Office between 8-3 daily.

Sexual harassment by an employee, student or other person in the district against any person is prohibited.

Allegation of sexual harassment shall be investigated and, if substantiated, corrective or disciplinary action, up to and including suspension and/or expulsion of the student or suspension and/or termination of the employee, will be implemented.

#### **STUDENT RECORDS**

The Family Educational Rights and Privacy Act (FERPA) afford parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. These rights are:

1. The right to inspect and review the student’s education records. Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate or misleading or in violation of the student’s privacy. Parents or eligible students should write the principal or appropriate official, clearly identify the part of the record they want changed and specify why it is inaccurate, misleading or in violation of the student’s privacy. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her responsibility as authorized by the district. Upon request, the school discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the school to comply with the requirements of FERPA. Complaints should be directed to : Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington DC 20202-4605.
5. Directory information is information contained in an education record of a student that generally would not be considered harmful or an invasion of privacy if disclosed without the consent of a parent or eligible student. The district will designate the types of information included in directory information and release this information without first obtaining consent from a parent or eligible student unless a parent or eligible student notifies the district in writing as directed. Parents and eligible students will be notified annually of the information the district has designated as directory information and the process for notifying the district if they do not want the information released.

Even if parents or eligible students notify the district in writing that they do not want the directory information disclosed, the district may still disclose information if required or allowed to do so by law. For example, the district may require students to disclose their names, identifiers, or district e-mail addresses in classes in which they are enrolled, or students may be required to wear, publicly display or disclose a student identification card or badge that exhibits information that is directory information.

The school district designates the following items as directory information.

*General Directory Information-* The following information the district maintains about a personally identifiable student may be disclosed by the district to the school community through, for example, district publications, or to any person without first obtaining written consent from a parent or eligible student:

Any school official or employee who knows or has reasonable cause to suspect that a child has been subjected to conditions or circumstances which would reasonably result in abuse or neglect, will

immediately report or cause a report to be made to the building principal who will then become responsible for making a report via the Child Abuse Hotline (1-800-392-3738) to the Missouri Division of Family Services (DFS), as required by law. The building principal will make the superintendent aware that a report is made and will keep him or her aware of the status of the case.

#### **ARTICLES PROHIBITED IN SCHOOL**

Problems arise each year because students bring articles that are hazards to the safety of others or interfere in some way with school procedure. Such items as toy guns, water pistols, bean shooters, sling shots, knives, hardballs, etc. , if brought to school as playthings are undesirable and will be confiscated and not returned. Parents are requested to help children understand the necessity for such regulations.

These rights transfer from the parents to a student who is 18 years old or an emancipated minor.

The Pierce City R-VI school district has adopted policies, in consultation with parents, regarding these rights and has made arrangements to protect the privacy of student records. The district will directly notify parents of students who are scheduled to participate in the specific activities or surveys noted below and will provide an opportunity for the parent to opt his or here child out of participation in the specific activity or survey. The district will make this notification to parents at the beginning of the school year if the district has identified the specific or approximate dates of the activities or surveys at that time. Parents will also be provided notification of surveys and activities scheduled after the start of the school year.

It is the policy of our school to accord equal consideration and impartial treatment regardless of race, color, national origin, ancestry, religion, socioeconomic status, marital status, sex, age, disabling conditions or organizational memberships.

In keeping with the requirements of federal and state law, PCHS strives to remove a vestige of discrimination in educational programs, offerings, services and vocational opportunities offered to students; in the assignment of students to schools and classes; in student discipline; and in the location and use of facilities and educational materials.

#### **IMMUNIZATON CERTIFICATE**

#### **EMERGENCY MEDICATION**

The Board will purchase an adequate number of prefilled epinephrine auto syringes and asthma-related rescue medications based on the recommendation of the school nurse, who will be responsible for maintaining adequate supplies and replacing expired syringes and medications.

Parents not wanting their student to receive epinephrine or asthma-related rescue medications should write a letter stating this to the high school office. A current copy of the list of students that should not receive the medications will be kept with the devices at all times.

#### **STUDENT ALCOHOL/DRUG ABUSE**

The Pierce City Board recognizes its share of responsibility for the health, welfare and safety of the students who attend the Pierce City R-VI School District. Therefore, the use, sale, transfer, possession or being under the influence of alcoholic beverages or controlled substances is prohibited on any school property, on any school-owned vehicle or in any other school-approved vehicle used to transport students to and from school or school activities; or off school property at any school-sponsored or school-approved activity, event or function, such as a field trip or athletic event, where students are under the jurisdiction of the school district. The district may require a student to submit to a drug or alcohol test if there is reasonable suspicion that the student has consumed prohibited substances.

For the purpose of this policy, a controlled substance shall include any controlled substance, counterfeit substance or imitation controlled substance as defined in the Narcotic Drug Act, Section 195.010, RSMo.

The school administration or teachers shall have the right to conduct searches, which are reasonable in scope, of persons reasonably suspected to be in violation of this policy during or after school hours on school property, or at any school event, whether at the school or at some alternative location.

Any student who, after being given an opportunity to present his or her version of the incident, is found by the administration and/or staff to be in violation of this policy shall be subject to disciplinary action up to and including suspensions, expulsion or other discipline as provided in the district's discipline policy, and referral for prosecution. Strict compliance is mandatory. All controlled substances shall be turned over to the local law enforcement agency.

The district shall provide information about any drug and alcohol counseling and rehabilitation and re-entry programs that are available to students. Students may be required to participate in such programs in order to avoid suspension or expulsion if they are found to be in violation of this policy. All parents and students shall be provided with this information.

The district shall certify that it has adopted and implemented the drug prevention program described in this policy in the form required by the Department of Elementary and Secondary Education or the United States Department of Education. This district shall conduct a biennial review of such program to determine its effectiveness, to implement necessary changes and to ensure that the disciplinary sanctions are consistently enforced.

If you would like information regarding the district's extracurricular drug testing please visit the high school office or the athletic director's office.

#### **ADMINISTERING MEDICINES TO STUDENTS**

If under exceptional circumstances a child is required to take oral medication during school hours and the parent cannot be at school to administer the medication, the school nurse and/or the principal's designee will administer the medication in compliance with the regulations that follow:

##### Prescription Drugs

The medication shall be in the original container labeled with the physician's prescription. If it is necessary for a student to take a daily prescription medicine, a request with the parent's and physician's signatures must be provided annually.

Parents shall authorize school personnel to give medication. This authorization can be in the form of a note to the school acknowledging the parent's approval, dosage, times and amounts, date prescribed, name of medicine, purpose of medicine, possible side effects, and the termination date for administering the medication. Students are not allowed to carry medication with them at school. If it is medically necessary for a student to carry certain medication (e.g. an asthmatic's bronchodilator), a request with the parent's and physicians signatures must be provided. The student will then be allowed to keep the specified medicine with himself/herself to facilitate use. In such instances, the district does not assume any responsibility for the medication or the student's use of it. All medication that is to be given at school must be hand carried by a parent or guardian to and from school.

##### Non-Prescription Drugs

Oral medication that is nonprescription may be administered under the supervision of the school nurse and/or principal's designee if authorized by the parent. Students are not to carry medication with them at school.

Parents shall authorize school personnel to give medication. This authorization can be in the form of a note to the school acknowledging the parent's approval, dosage, times and amounts, name of medicine, purpose of medicine, possible side effects, and the termination date for administering the medication. Non-prescription drugs will not be given longer than three (3) days at school

without a physician's written order. All medication that is to be given at school must be hand carried by a parent or guardian to and from school.

Procedures

The school nurse and/or principal's designee will follow the procedures listed below regarding the dispensing of personal medication:

1. Inform appropriate school personnel of the medication.
2. Keep a record of the medication administered.
3. Keep medication in a locked cabinet.
4. Return unused medication to the parent or dispose of it if the parent requests disposal.

The school district retains the right to reject requests for administering medication. The parent/guardian of the student must assume responsibility for informing school personnel of any change in the student's health or change in medication.

**Please refer to Board Policy JHCD**

**COMMUNICABLE DISEASE**

The Pierce City Board of Education recognizes its responsibilities to protect the health of students and employees from the risks posed by infectious diseases. The Board also has the responsibility to uphold the rights of affected individuals to privacy and confidentiality, to continue to attend school, and to be treated in nondiscriminatory manner.

Section 167.191, RSMo makes it "unlawful for any child to attend any of the public schools of this state while afflicted with any contagious or infectious disease, or while liable to transmit such diseases after having been exposed to it ... The teacher or board of directors may require any child to be examined by a physician, and exclude the child from school so long as there is any liability of such disease being transmitted by the pupil."

The statute is routinely applied to common childhood diseases and parasitic infestations such as mumps, measles, chicken pox, strep throat and lice, which are readily transmitted through casual contact of the type most likely to occur within a school setting. Application of the statute to children with chronic infectious or contagious diseases not likely to be transmitted in a school setting such as AIDS, hepatitis B, herpes, and tuberculosis is more problematic.

A student will not be permitted to attend classes or other school sponsored activities if the student is known to be afflicted with a liable to transmit any contagious or infectious disease unless the Board or its designee has determined, based upon medical evidence, that: (1) The student is no longer infected or liable to transmit the disease; or (2) The student is afflicted with a chronic infectious disease which poses little risk of transmission in the school environment with reasonable precautions. Any student permitted to attend school with a chronic

infectious disease must do so under specified conditions. Failure to adhere to the conditions will result in the student being excluded from school.

Students with a contagious or infectious disease and their families have a right to privacy and a need for confidentiality. Only staff members who need to know the identity and condition of such students will be informed.

## **BULLYING POLICY**

### **General**

In order to promote a safe learning environment for all students, the Pierce City R-VI School District prohibits all forms of bullying. The district also prohibits reprisal or retaliation against any person who reports an act of bullying among or against students.

### **Definitions**

*Bullying* – In accordance with state law, bullying is defined as intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; that substantially interferes with the educational performance, opportunities or benefits of any student without exception; or that substantially disrupts the orderly operation of the school. Bullying includes, but is not limited to: physical actions, including violence, gestures, theft, or property damage; oral, written, or electronic communication, including name-calling, put-downs, extortion, or threats; or threats of reprisal or retaliation for reporting such acts.

*Cyberbullying* – A form of bullying committed by transmission of a communication including, but not limited to, a message, text, sound or image by means of an electronic device including, but not limited to, a telephone, wireless telephone or other wireless communication device, computer or pager. The district has jurisdiction over cyberbullying that uses the district's technology resources or that originates on district property, at a district activity or on district transportation. Even when cyberbullying does not involve district property, activities or technology resources, the district will impose consequences and discipline for those who engage in cyberbullying if there is a sufficient nexus to the educational environment, the behavior materially and substantially disrupts

the educational environment, the communication involves a threat as defined by law, or the district is otherwise allowed by law to address the behavior.

*School Day* – A day on the school calendar when students are required to attend school.

### **Designated Officials**

The principal of each building is hereby designated as the individual to receive and investigate reports of bullying. Each building principal shall designate at least two teachers or administrators in the building who are authorized to receive and investigate reports of bullying in the principal's absence or at the principal's discretion.

The district compliance officer appointed in policy AC will serve as the districtwide antibullying coordinator. The antibullying coordinator will receive all completed investigative reports from all buildings and analyze the reports to identify any information that would inform the district's antidiscrimination and antibullying education and training programs. In addition, the antibullying coordinator will assist in making any relevant reports as required by state and federal law.

### **Reporting Bullying**

School employees, substitutes or volunteers are expected to intervene to prevent student bullying, appropriately discipline the perpetrator, assist the victim and report the incident to the building principal or designee for further investigation and action. Any school employee, substitute or volunteer who witnesses or has firsthand knowledge of bullying of a student must report the incident to the building principal or designee as soon as possible, but no later than two school days after the incident.

Students who have been subjected to bullying, or who have witnessed or have knowledge of bullying, are encouraged to promptly report such incidents to a school employee. Any school employee receiving such a report shall promptly transmit the report to the building principal or designee.

If the bullying incident involves students from more than one district building, the report should be made to the principal or designee of the building in which

the incident took place or, if more appropriate, to the principal or designee of the building attended by the majority of the participants in the incident.

### **Investigation**

Within two school days of receiving a report of bullying, the principal or designee will initiate an investigation of the incident. Reports that involve students from multiple buildings will be investigated cooperatively by the principals of each building involved, or those principals may request that the district's compliance officer designated in policy AC conduct the investigation. If at any time during the investigation the principal determines that the bullying involves illegal discrimination, harassment or retaliation as described in policy AC, the principal will report the incident to the compliance officer designated in that policy, who will assist in the investigation. If the alleged bullying involves a special education student or a student with disabilities, the principal will also notify the special education director.

The investigation shall be completed within ten school days of the date the report of bullying was received unless good cause exists to extend the investigation. Upon completion of the investigation, the principal will decide whether bullying or harassment occurred and, if so, whether additional discipline is warranted in accordance with the district's student discipline code. The principal will generate a written report of the investigation and findings and send a copy of the completed report to the district's antibullying coordinator. The principal or designee will document the report in the files of the victim and the alleged or actual perpetrator of bullying. All reports will be kept confidential in accordance with state and federal law.

If the incident involved allegations of illegal discrimination or harassment, the principal's decision may be appealed in accordance with policy AC. Student discipline may be appealed when allowed by law in accordance with Board policy.

The principal or other appropriate district staff will work with victims and their families to access resources and services to help them deal with any negative effects that resulted from the incident.

**Consequences**

Students who participate in bullying or who retaliate against anyone who reports bullying will be disciplined in accordance with the district's discipline code. Such discipline may include detention, in-school suspension, out-of-school suspension, expulsion, removal from participation in activities, exclusion from honors and awards, and other consequences deemed appropriate by the principal or superintendent. The district will also contact law enforcement when required by law or notify social media companies of inappropriate online activity when appropriate.

Even in situations where the district does not have jurisdiction to discipline a student for bullying, such as when the acts take place off campus and there is an insufficient nexus to the district, the principal or designee will take appropriate actions to assist student victims. Such actions may include, but are not limited to, contacting the parents/guardians of the victim and the alleged perpetrators, communicating that this behavior is not allowed on district grounds or at district activities, notifying the appropriate district staff to assist the victim, and taking additional action when appropriate, such as notifying law enforcement or social media companies of inappropriate online activity.

District employees and substitutes who violate this policy will be disciplined or terminated. Discipline may include suspension with or without pay, a negative evaluation, prohibition from being on district property or at district activities, mandated training or other appropriate remedial action. Volunteers who violate this policy will no longer be permitted to volunteer.

**Policy Publication**

The district shall annually notify students, parents/guardians, district employees, substitutes and volunteers about this policy and the district's prohibition against bullying. A copy of this policy shall be included in student handbooks and posted on the district's website.

**Training and Education**

The district's antibullying coordinator will provide information and appropriate training designed to assist employees, substitutes and volunteers who have

significant contact with students in identifying, preventing and responding to incidents of bullying.

The district will provide education and information about bullying and this policy to students every year. The principal of each school, in consultation with school counselors and other appropriate school employees, will determine the best methods for facilitating the discussion. Methods may include, but are not limited to: assemblies; homeroom presentations; class meetings; team or club meetings; special presentations by counselors, social workers or mental health professionals; and open-house events. When practical, parents/guardians will be invited to attend.

In addition to educating students about the content of this policy, the district will inform students of:

1. The procedure for reporting bullying.
2. The harmful effects of bullying.
3. Any initiatives the school or district has created to address bullying, including student peer-to-peer initiatives.
4. The consequences for those who participate in bullying or engage in reprisal or retaliation against those who report bullying.

School counselors, social workers, mental health professionals, school psychologists or other appropriate district staff will educate students who are victims of bullying about how to overcome the negative effects of bullying including, but not limited to:

1. Cultivating the student's self-worth and self-esteem.
2. Teaching the student to defend him- or herself assertively and effectively without violence.
3. Helping the student develop social skills.

4. Encouraging the student to develop an internal locus of control.

#### **Additional School Programs and Resources**

The Board directs the superintendent or designee to implement programs and other initiatives to address bullying, respond to such conduct in a manner that does not stigmatize the victim, and make resources or referrals available to victims of bullying. Such initiatives may include educating parents/guardians and families on bullying prevention and resources.

#### **STUDENT DISCIPLINE**

The Board of Education has the legal authority to make all needed policies, rules and regulations for organizing and governing the school district. This includes the power to suspend or expel a student for conduct which is prejudicial to good order and discipline in the schools or impairs the morale or good conduct of the students. These policies, rules and regulations will apply to all students in attendance in district instructional and support programs, as well as at school-sponsored activities and events. Students who have been charged, convicted or pled guilty in a court of general jurisdiction for commission of a felony may be suspended in accordance with law.

Building principals are responsible for the development of rules and regulations regarding student conduct needed to maintain proper behavior in schools under their supervision. Principals, subject to appropriate due process procedures, may summarily suspend any student for up to ten (10) school days for violations of these policies, rules and regulations. Notice of suspension shall be given immediately to the parent or guardian, and to the superintendent.

Flagrant disregard for policies, rules and regulations or continued truancy may result in suspension by the superintendent or expulsion by the Board, both subject to appropriate due process procedures. The superintendent may suspend a student for up to 180 school days; however, expulsion of students is a function only of the Board of Education.

Teachers shall have the authority to make and enforce necessary rules for the internal governance in the classroom, subject to review by the building principal. The Board expects each teacher to maintain a satisfactory standard of conduct in the classroom.

Any time a referral that warrants formal disciplinary action is submitted, a reasonable effort will be made by the principal to either contact the parent or guardian by written notice delivered by the student, through the mail, or by direct telephone contact.

All employees of the district shall annually receive instruction related to the specific contents of the district's discipline policy and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities, and instruction in the necessity and requirements for confidentiality.

The comprehensive discipline policy of the district is composed of this policy and all sub coded policy codes. This includes, but is not limited to, the following policies and regulations: JF-R, JGA, JGB, JBD, JGE, and JGF. A copy of the district's comprehensive discipline policy will be available in the superintendent's office during normal business hours.

### **SUSPENSION**

(From Board Policy Manual, Policy JGD)

NOTE: The following procedures apply to all students except those who are defined by Board policy as disabled. Procedures applicable to disabled students are described in Board policies dealing with the discipline of disabled children.

The Board of Education believes that the right of a child to attend free public schools carries with it the responsibilities of the child to attend school regularly and to comply with the lawful policies, rules and regulations is essential for permitting others to learn at school.

Therefore, the administrative prerogative to exclude a student from school because of willful violation of school rules and regulations, willful conduct which materially or substantially disrupts the rights of others to an education, or willful conduct which endangers the student, other students or the property of the school is permitted, provided such action is taken in accordance with due process and with due regard for the welfare of both the student and the school.

The term "suspension" refers to an exclusion from school that will not exceed a specific period of time. The term "expulsion" refers to exclusion for an indefinite period.

Students who are suspended from school may complete homework assignments. All work must be turned in no later than the first day back from suspension. Parents will be notified when homework may be picked up from the high school office. Students serving a suspension may not be within 1000 feet of district buildings.

### **CORPORAL PUNISHMENT**

For the purposes of this policy, corporal punishment is the use of physical force as a method of correcting student behavior. No person employed by or volunteering on behalf of the Pierce City R-VI School District shall administer corporal punishment or cause corporal punishment to be administered upon a student attending district schools.

A staff member may, however, use reasonable physical force against a student for the protection of the student or other persons or to protect property. Restraint of students in accordance with the district's policy on student seclusion, isolation and restraint is not a violation of this policy.

### **STUDENT DISCIPLINE HEARINGS**

The Board of Education may originate student discipline hearings upon recommendation of the superintendent. In such cases, the Board of Education will review the superintendent's report and determine whether to conduct a discipline hearing. In addition, student discipline hearings also will be held upon written request of the student or the student's parents, to consider appeals from student suspension in excess of ten (10) school days. A discipline hearing will always be held in cases of suspensions in excess of 180 school days or expulsions, unless after meeting with the superintendent or designee, the parent or guardian waives, in writing, the right to an expulsion hearing.

### **CARE OF YOUR SCHOOL PROPERTY**

A good way to show respect and consideration for other people in your school is to help keep the building where you all meet together as clean as possible. Do your best to keep the classrooms, hall and restrooms as well as the school grounds, looking this way throughout the year. A Board of Education ruling says, "Any pupil guilty of willfully defacing or injuring school property shall pay for the damages caused thereby." Lockers are school property and should be treated with care.

### **STUDENT DISCIPLINE**

The Student Code of conduct is designed to foster student responsibility, respect for the rights of others, and to ensure the orderly operation of district schools. No code can be expected to list each and every offense that may result in the use of disciplinary action. However, it is the purpose of this code to list certain offenses, which, if committed by a student, will result in the imposition of a certain disciplinary action. Any conduct not included herein, or an aggravated circumstance of any offense or an action involving a combination of offenses may result in disciplinary consequences that extend beyond this code of conduct as determined by the principal, superintendent and/or Board of Education. In extraordinary circumstances where the minimum consequence is judged by the superintendent or designee to be manifestly unfair or not in the interest of the

district, the superintendent or designee may increase/reduce the consequences listed in this policy, as allowed by law.

- Students will remain in their assigned seats sitting up straight, keeping their feet and chair on the floor, and facing forward for the entire day. - No electronics of any kind, excluding calculators, are allowed in the ISS room. Any electronic item brought in will be taken and will result in another day of ISS.
- Students will be dismissed from ISS each day after the ISS teacher has inspected their area for cleanliness. All trash and debris must be picked up, and the assigned desk cannot be damaged in anyway.
- Instructions and/or directions of the ISS teacher are to be followed at all times. Students will conduct themselves in an appropriate fashion during the entire suspension. Normal classroom behavior is expected and the Student Handbook rules apply. Failure to comply with any of the ISS rules could result in standing or additional days in ISS.

Academic dishonesty, such as plagiarism or cheating on assignments, exams, or other school work will not be tolerated. Students are to do their own work and not attempt to take credit for the work of others.

Students who are academically dishonest are subject to discipline, such as detention, Friday school, or ISS. Students will be given an alternative assignment and receive 80% of the points earned for the alternative assignment. The original assignment will not be recorded in the grade book.

**TECHNOLOGY USAGE**

The Pierce City R-VI School District recognizes the educational and professional value of electronic-based information technology, both as a means of access to enriching information and as a tool to develop skills that students need.

The district's technology exists for the purpose of maximizing the educational opportunities and achievement of district students. The professional enrichment of the staff and Board and increased engagement of the students' families and other patrons of the district are assisted technology, but are secondary to the ultimate goal of student achievement.

Use of technology resources in a disruptive, manifestly inappropriate or illegal manner impairs the district's mission, squanders resources and shall not be tolerated. Therefore, a consistently high level of personal responsibility is expected of all users granted access to the district technology resources. Development of student's personal responsibility is itself an expected benefit of the district technology program.

**DEFINITIONS**

For the purposes of this policy and related regulation, procedures and forms, the following terms are defined:

*User* – Any person who is permitted by the district to utilize any portion of the district's technology resources including, but not limited to, students, employees, school Board members and agents of the school district.

*User Identification (ID)* – Any identifier that would allow a user access to the district's technology resources or to any program including, but not limited to, e-mail and Internet access.

*Password* – A unique word, phrase or combination of alphabetic, numeric and non-alphanumeric characters used to authenticate a user ID as belonging to a user.

**TECHNOLOGY ADMINISTRATION**

The Board directs the superintendent or designee to create rules and procedures governing technology usage in the district to support the district's policy as needed.

The Board directs the superintendent or designee to assign trained personnel to maintain the district's technology in a manner that will protect the district from liability and will protect confidential student and employee information retained or accessible through district technology resources. Trained personnel shall establish a retention schedule for the regular archiving or deletion of data stored on district technology resources in accordance with the Public School District Retention Manual published by the Missouri Secretary of State. Administrators of computer resources may suspend access to and/or availability of the district's technology resources to diagnose and investigate network problems or potential violations of the law or district policies, regulation and procedures.

#### **USER IDENTIFICATION AND NETWORK SECURITY**

The district technology resources may be used by authorized students, employees, school Board members and other persons such as consultants, legal counsel and independent contractors.

Use of the district's technology resources, is a privilege, not a right. No student, employee or other potential user will be given an ID, password or other access to district technology if he or she is considered a security risk by the superintendent or designee.

Users must adhere to district policies, regulation, procedures and other district guidelines. All users shall immediately report any security problems or misuse of the district's technology resources to an administrator or teacher.

#### **USER AGREEMENT AND PRIVACY**

Unless authorized by the superintendent or designee, all users must have an appropriately signed User Agreement on file with the district before they are allowed access to district technology resources. All users must agree to follow the district's policies, regulations and procedures.

In addition, all users must recognize that they do not have legal expectation of privacy in any electronic communication or other activities involving the district's technology. A user ID with e-mail access, if granted, is provided to users of this district's network and technology resources only on condition that the user consents in his or her User Agreement to interception of or access to all communication accessed, sent, received or stored using district technology.

#### **CONTENT FILTERING AND MONITORING**

The district will monitor the online activities of minors and operate a technology protection measure ("filtering/blocking device") on the network and/or all computers with Internet access, as required by law. The filtering/blocking device will be used to protect against access to visual

depictions that are obscene, harmful to minors and child pornography, as required by law. Because the district's technology is a shared resource, the filtering/blocking device will apply to all computers with Internet access in the district. Filtering/Blocking devices are not foolproof, and the district cannot guarantee that users will never be able to access offensive material using district equipment. Evasion or disabling, or attempting to evade or disable, a filtering/blocking device installed by the district is prohibited.

The superintendent, designee or the district's technology administrator may disable the district's filtering/blocking device to enable an adult user access for bona fide research or for other lawful purposes. In making decisions to disable the district's filtering/blocking device, the administrator shall consider whether the use will sever a legitimate educational purpose or otherwise benefit the district.

#### **CLOSED FORUM**

The district's technology resources are not a public forum for expression of any kind and are to be considered a closed forum to the extent allowed by law.

The district's web page will provide information about the school district, but will not be used as an open forum. The district's web page may include the district's address, telephone number and an e-mail address where members of the public may easily communicate concerns to the administration and the Board.

All expressive activities involving district technology resources that students, parents and members of the public might reasonably perceive to bear the imprint of the school and that are designed to impart particular knowledge or skills to students, participants and audiences are considered curricular publications. All curricular publications are subject to reasonable proper restraint, editing and deletion on behalf of the school district's technology are subject to reasonable prior restraint and subject matter restrictions as allowed by law and Board policies.

Students who are 18 or who are otherwise able to enter into an enforceable contract may sign the User Agreement without additional signatures. Students who do not have a User Agreement on file with the district may be granted permission to use district technology by the superintendent or designee.

#### **PRIVACY**

The district may examine all information stored on district technology resources at any time. The district may monitor student technology usage. Electronic communications, all data stored on the district's technology resources and downloaded material, including files deleted from the user's account, may be intercepted, accessed or searched by district administrators or designees at any time.

#### **VIOLATIONS TO TECHNOLOGY USAGE POLICIES AND PROCEDURES**

Any violation of district policies, regulations or procedures regarding technology usage may result in temporary, long-term or permanent suspension of user privileges.

The administration may use disciplinary measures to enforce district policies, regulations and procedures. Any attempted violation of district's policies, regulations or procedures, regardless of the success or failure of the attempt, may result in the same discipline or suspension of privileges as that of an actual violation.

#### Junior/Senior and Parents

Congress has passed legislation that requires high schools to provide military recruiters upon request the names, addresses and phone numbers of junior and seniors. The new requirements are contained in the No Child Left Behind Act of 2001 and the National Defense Authorization Act for Fiscal Year 2002. Both laws override any previous restrictions found in the Family Educational Rights and Privacy Act about disclosing student information to military recruiters. School must notify parents at the beginning of the school year of their intention to designate certain "directory information" about students, including names, addresses and phone numbers. Parents may "opt out," or reject, to the information being released to recruiters without their prior written consent. There was a page in the student handbook for parents to sign and turn back into the high school office at the beginning of this year, but several were not turned back in. We are now separating the directory information release and the military release.

Please check your option.

- \_\_\_\_\_ I am giving the school permission to release my child's name address and phone number to military recruiters.
- \_\_\_\_\_ I am giving the school permission to release only my child's name and address to military recruiters.
- \_\_\_\_\_ I am opting out of having my child's information released to military recruiters.

Please return this to the High School office. If we do not receive this letter back, we will assume that you are giving permission for us to release your child's information.
