

ARE YOU INTERESTED IN CODING?

Come check out Westgrove Technology's 1st annual summer code camp!

What is Westgrove Technology?

Westgrove Technology is a new local tech startup in West Grove, Iowa. Working in cooperation with Metal Wholesale, Westgrove Technology is focused on creating both innovative software solutions, as well as creating new hardware solutions to improve efficiency in the manufacturing industry.

What is Code Camp?

Code Camp is an affordable program we are offering to teach *YOU* how to code! Come out to our office only 3 nights a week from *June 7 - August 13* to from 6pm to 8pm (Mondays, Wednesdays, Thursdays), and get an education from college-educated and field-trained professional software developers. We will teach the basics of programming, as well as teaching you how to code in our personal favorite programming language – *RUST!*

Okay that sounds awesome! How do I sign up?

Code Camp is available to all students coming into 8th grade and up, as well as any adults who are interested! You can call us to sign up at (800) 680-4205, or shoot us an email at *signup@westgrove.tech*! And the best part is that you get all of this for *only \$45 for the whole course!*

What all do I get from this program?

You'll learn all the basics of programming in RUST, with a portfolio of projects you've personally coded from scratch. The last week all participants will compete for an award, with a team to see who can develop the best RUST program in a week!

You also may possibly receive a part-time job opportunity at the end of the course!
