

SECURITY – KEY ISSUANCE

The Board recognizes that school buildings constitute one of the greatest investments of the community's taxpayers, and the Board considers it in the public's best interest to protect that investment adequately. Thus measures shall be taken by the RSU administration to secure buildings and grounds against trespass.

Access to school buildings and grounds outside of regular school hours shall be limited to personnel whose work requires it; other individuals and groups shall be allowed on school property only with the specific knowledge and permission of the responsible administrator, or with a contract issued by Community Schools. Non-employees shall not be issued keys.

An adequate key control system shall be established which will limit access to buildings to authorized personnel only. The issuance and control of keys shall be the responsibility of the department of Buildings and Grounds at the district level and the Building Principal at the school level.

The department of Buildings and Grounds shall establish guidelines for limiting the number of unlocked entrances at buildings during school hours.
