

School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan. An IPM plan is required if a school district uses pesticides¹.

IPM statement

It is the goal of KINGS RIVER UNION ELEMENTARY SCHOOL to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Reduce the use of pesticides while controlling pests.
 Manage pests to reduce the damage to School facilities.
 Have long term pest prevention plan in place for the overall health and well-being of students and staff.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Tino Fernandez/Director MOT	IPM Decisions, Purchasing and application of pesticides.
Victor Ramirez/Maintenance	Application of Pesticides
Gerald Risenhoover/Maintenance	Application of pesticides
Frank Valenica/Maintenance	Application of Pesticides
Dan Reihl/Director Facilities	Oversight of HSA requirements, IPM Decisions

Pest management contracting

✗ Pest management services are contracted to a licensed pest control business.

Pest Control Business
 name(s): Terminix

✗ Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: Terminix
(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by District Staff and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Director of maintenance and Director of Facilities conduct visual inspections daily as part of daily routine and communicate any concerns to contracted Pest Control agent.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Roaches	x	x	x	x	x	x	x	
Rodents	x	<input type="checkbox"/>	x	x	x	x	<input type="checkbox"/>	Owl Boxes

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

Gopher Getter – Strychnine
EcoVia – Thyme oil, Phenyl Ethyl Propionate, Rosemary oil

Healthy Schools Act

- x This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 - 17613, 48980.3; Food & Agricultural Code Sections 13180 - 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- x Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- x School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

- x Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt¹ from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

- x This IPM plan can be found online at the following web address: kingsriverelementary.org
- This IPM plan is sent out to all parents, guardians and staff annually.

Review

- x This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.\

Date of next review: 7/31/2019

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature: 

Date: 6-25-2018

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)
